Assistive Technology Service Procedure Code and Modifier Update

CONTENTS

The Assistive Technology Service Procedure Code will have a new *GT* internal CIMOR modifier for Remote Supports and Personal Emergency Response System

Effective February 1st, 2020, the Assistive Technology (AT) waiver service procedure code A9999 will have an internal CIMOR modifier *GT* for Remote Supports (RS), Personal Emergency Response System (PERS) and Mobile Emergency Response System (MERS) services. All other AT items/services will continue under the current code with no modifier. Service definition, service limitation and provider qualifications did not change as defined in the Medicaid waiver applications. Adding the *GT* modifier would benefit data collection and analysis of number of users, authorizations and claims.

Waiver Service	Procedure Code	CIMOR Modifier	Service Unit	Maximum MO Payment	HealthNet
Assistive Technology	A9999		1 Job/item	\$9,000	
Remote Supports and Personal Emergency Response System	A9999	GT			

Billing/Authorization requirements

Effective February 1, 2020, the Division will update the current Assistive Technology RS and PERS authorizations with the new modifier.
