

Improving lives THROUGH
supports and services
THAT FOSTER self-determination.

7/22/21

LEAP Grant

The Division of Developmental Disabilities, in partnership with stakeholders and contractor EMI Advisors, is testing the integration of standardized health and human services data to support person-centered planning, population health management, reporting, and value-based payment (VBP) among health care and home and community-based service (HCBS) providers for individuals with developmental disabilities. Project information is available on the [Division website](#), along with the [LEAP Grant July 2021 Newsletter](#).
