Survey Opportunity

Researchers at the Kennedy Krieger Institute, in collaboration with Washington University School of Medicine, are seeking parents and legal guardians of school-age children with intellectual or developmental disabilities to participate in an online survey to help us understand their concerns about their child's return to school in-person during COVID-19. The survey takes about 20 minutes and you will receive a gift card for your time. To participate in this study and complete the online questionnaire, please click this link: https://jhmi.co1.qualtrics.com/jfe/form/SV_25GqHdeP58zLEkm.

If you have any questions about this study, please send an email to COVIDstudy@kennedykrieger.org.
