Disaster Preparedness Survey

The Missouri Developmental Disabilities Council (MODDC) is collecting data on how prepared people with disabilities are for a disaster. A short survey asks about your experiences, how prepared you are now, and what could help you be more prepared for disasters in the future.

Your feedback will help MODDC identify gaps to improve the preparedness level of people with disabilities in the state. Your feedback could also be used to educate policymakers, develop trainings, or share resources so you can be more prepared.

The deadline to complete the survey is **September 30, 2022**. The survey is open to people with disabilities, family members, direct support professionals, and more.

If you would like the survey in an alternative format, please email moddc@moddcouncil.org.

The survey is being conducted in conjunction with National Preparedness Month.
