

WEBVTT

1 "Leslie DeGroat" (625188352)

00:00:01.140 --> 00:00:06.775

Is Leslie to growth and I'm a registered nurse and I service the divisions clinical coordinator.

2 "Leslie DeGroat" (625188352)

00:00:07.135 --> 00:00:18.325

I am joined by my colleague who serves as 1 of the divisions, administrative office support assistance, and also serves as the divisions gatekeeper for the health risk screening tool process.

3 "Leslie DeGroat" (625188352)

00:00:18.565 --> 00:00:30.985

And she's my valuable teammate, um, this is an informational call for implementing the Missouri division of developmental disabilities, health, risk, screening tool, or hers process. If you are as residential service.

4 "Leslie DeGroat" (625188352)

00:00:31.140 --> 00:00:32.610

Provider agency.

5 "Leslie DeGroat" (625188352)

00:00:33.145 --> 00:00:43.075

We are currently in implementation phase 1 in which residential service provider agencies can voluntarily begin implementing the her's process for residential waiver.

6 "Leslie DeGroat" (625188352)

00:00:43.075 --> 00:00:52.765

Participants and support coordinators can voluntarily begin implementing on individuals. Uh, they support who have non residential waiver services.

7 "Leslie DeGroat" (625188352)

00:00:53.125 --> 00:01:02.425

You will be given information today about the Hearst process after this monthly after reviewing this webinar if you choose to.

8 "Leslie DeGroat" (625188352)

00:01:02.610 --> 00:01:08.580

Forward with implementation, we will be having monthly implementation calls starting in October.

9 "Leslie DeGroat" (625188352)

00:01:08.580 --> 00:01:21.295

Please reach out to our mailbox and we will forward you the invite to join the call to move forward and implement. We will be posting the email to our mailbox for those interested in the hearse process during this presentation.

10 "Leslie DeGroat" (625188352)

00:01:21.475 --> 00:01:24.295

It will appear on a slide and we will put it in the chat.

11 "Leslie DeGroat" (625188352)

00:01:32.550 --> 00:01:47.425

the healthcare screening tool or hearst is a tool used which i'll just probably refer to it as hurst mostly anyway this screening tool sometimes called a screen sometimes called a rating um those words can be used interchangeably it

12 "Leslie DeGroat" (625188352)

00:01:47.425 --> 00:01:59.455

is a tool used to provide early detection of health risks and destabilization the mo hearse project has also designed standardized electronic health risk support plans or

13 "Leslie DeGroat" (625188352)

00:02:01.915 --> 00:02:02.485

templates

14 "Leslie DeGroat" (625188352)

00:02:02.550 --> 00:02:06.810

And intellect ability, or her system.

15 "Leslie DeGroat" (625188352)

00:02:06.810 --> 00:02:15.000

With that that will support the team with identification of implementation strategies to mitigate risk and improve health outcomes.

16 "Leslie DeGroat" (625188352)

00:02:15.000 --> 00:02:22.050

The completion of the Hearst in any applicable will align with the individuals annual.

17 "Leslie DeGroat" (625188352)

00:02:22.050 --> 00:02:26.100

Individual support plan or meeting.

18 "Leslie DeGroat" (625188352)

00:02:26.100 --> 00:02:38.845

Information entered into the her system will be accessible electronically to all identified team members, providing a more efficient and effective system for interdisciplinary team member, communication,

19 "Leslie DeGroat" (625188352)

00:02:39.025 --> 00:02:42.655

indirect accessibility to identified health risk planning.

20 "Leslie DeGroat" (625188352)

00:02:42.930 --> 00:02:53.335

And service information, this access will also provide a more efficient and effective process for ongoing monitoring to ensure individual waiver, participant, health and welfare.

21 "Leslie DeGroat" (625188352)

00:02:53.905 --> 00:03:00.535

The process is designed to have the individual to their fullest extent possible.

22 "Leslie DeGroat" (625188352)

00:03:00.745 --> 00:03:12.835

And their identified interdisciplinary support team, such as family friends, paid, support, staff, registered nurse, staff, support coordinator, collectively, complete. The Hearst, the Hurst will become.

23 "Leslie DeGroat" (625188352)

00:03:12.930 --> 00:03:20.490

Pleaded during the month of the scheduled ISP meeting to assist with the identification of additional supports in any service.

24 "Leslie DeGroat" (625188352)

00:03:20.490 --> 00:03:24.300

Services outside of any required to help risk support plans.

25 "Leslie DeGroat" (625188352)

00:03:30.505 --> 00:03:38.395

So, who does the process apply to? The process applies to individuals receiving 9,915 see, home and community based waiver services.

26 "Leslie DeGroat" (625188352)

00:03:38.395 --> 00:03:50.515

We have 4 waivers in Missouri and their community waiver, the comprehensive waiver, the partnership for hope waiver and the Missouri children with developmental disabilities are also called the mo kids waiver.

27 "Leslie DeGroat" (625188352)

00:03:50.515 --> 00:03:55.075

And so it will apply to all of these. apply to all of these

28 "Leslie DeGroat" (625188352)

00:04:02.490 --> 00:04:07.500

So, why is the division of developmental disabilities initiating this process?

29 "Leslie DeGroat" (625188352)

00:04:07.500 --> 00:04:21.055

Well, the process is designed to serve as a support to ensure individual waiver, participant, health and welfare information entered into the, her system will be accessible electronically to all identified team members,

30 "Leslie DeGroat" (625188352)

00:04:21.205 --> 00:04:31.405

providing a more efficient and effective system for interdisciplinary team member, communication, indirect accessibility to identify a health risk planning and service information.

31 "Leslie DeGroat" (625188352)

00:04:31.709 --> 00:04:46.524

There is also a message center in the system in which a person working with an individual can send messages to other interdisciplinary team members, which can facilitate communication so that the team can continue to work together to support that individual.

32 "Leslie DeGroat" (625188352)

00:04:47.094 --> 00:05:01.704

For example, if an individual appears sleepy, sleepy or unusual while, perhaps at their, the provider could very well message, the residential service provider.

33 "Leslie DeGroat" (625188352)

00:05:01.734 --> 00:05:10.464

Or or support coordinator, or whomever, just to let them know how that person's day's going it would really make that easy and really help facilitate that type of communication.

34 "Leslie DeGroat" (625188352)

00:05:10.854 --> 00:05:19.344

And then, maybe, you know, maybe that person has just started a new medication, and it's making them more tired or there could just be other things going on with that person.

35 "Leslie DeGroat" (625188352)

00:05:19.674 --> 00:05:30.594

And so the people who are supporting them, you know, it's just great to all be on the same page and, and just kind of know what's going on with that individual. So, that is that is kind of a bonus along with the screening tool.

36 "Leslie DeGroat" (625188352)

00:05:30.899 --> 00:05:37.439

With this, uh, her system, and that's just just 1 example that I could think of.

37 "Leslie DeGroat" (625188352)

00:05:37.439 --> 00:05:45.149

Um, to share, so the division of.

38 "Leslie DeGroat" (625188352)

00:05:45.149 --> 00:05:55.379

Is working directly with residential and support coordination provider agencies that have requested to initiate implementation of the process.

39 "Leslie DeGroat" (625188352)

00:05:55.379 --> 00:06:02.129

Residential and support coordination provider participation is encouraged during this phase of implementation.

40 "Leslie DeGroat" (625188352)

00:06:02.129 --> 00:06:12.984

Participation at this time will support final process enhancements prior to full statewide implementation, which is scheduled to align with a connection go, live date and calendar year 2023.

41 "Leslie DeGroat" (625188352)  
00:06:12.984 --> 00:06:20.784  
so, at this time residential service providers and support coordination providers can voluntarily implement and be able to provide feedback.

42 "Leslie DeGroat" (625188352)  
00:06:20.784 --> 00:06:32.034  
And work through adapting to this new process before it is mandated for implementation in 2023 currently it is projected to be mandatory in May. it is projected to be mandatory in may

43 "Leslie DeGroat" (625188352)  
00:06:32.129 --> 00:06:33.719  
2023.

44 "Leslie DeGroat" (625188352)  
00:06:33.719 --> 00:06:37.829  
And that is again, just to align with connection.

45 "Leslie DeGroat" (625188352)  
00:06:44.159 --> 00:06:47.934  
So, how does a residential service provider initiate the process?

46 "Leslie DeGroat" (625188352)  
00:06:48.384 --> 00:07:01.674  
Well, your 1st steps, right here by listening to this informational webinar however, if you are interested and further exploring and moving forward, um, please use this mailbox is capital.

47 "Leslie DeGroat" (625188352)  
00:07:01.979 --> 00:07:07.709  
M. O. capital. M. capital. O. D. H. R. S. T.

48 "Leslie DeGroat" (625188352)  
00:07:07.709 --> 00:07:21.744  
Project at dot Mo dot. Gov. And we will drop that in the chat please reach out to us through that it is a special email just for Hearst questions and, and just an annual thing hers related.

49 "Leslie DeGroat" (625188352)  
00:07:21.744 --> 00:07:25.944  
So, that way, we can address that and answer it as quickly as we can.

50 "Leslie DeGroat" (625188352)  
00:07:34.379 --> 00:07:40.584  
So when should all waiver participants have their initial health risk screen completed by?

51 "Leslie DeGroat" (625188352)  
00:07:40.974 --> 00:07:54.954  
Well, the targeted timeline is to have all of the waiver participants receiving their initial her screen by in May of 2024. so all people will

start being screened May of 2023. if they haven't already started in the process, um.

52 "Leslie DeGroat" (625188352)  
00:07:54.954 --> 00:07:58.554  
they haven't already started in the process um

53 "Leslie DeGroat" (625188352)  
00:07:58.859 --> 00:08:04.499  
That way everyone will have that full year to have had their initial screening.

54 "Leslie DeGroat" (625188352)  
00:08:04.499 --> 00:08:14.279  
So when should the hearse be completed?

55 "Leslie DeGroat" (625188352)  
00:08:14.279 --> 00:08:23.484  
The Hearst or rate the screening or rating is to be completed during the same month every year as when the individualized support plan meeting is conducted.

56 "Leslie DeGroat" (625188352)  
00:08:23.784 --> 00:08:33.954  
So, during that planning month, prior to the next ISP, implementation date, it does not have to be done during the planning meeting itself. And it can be a separate meeting.

57 "Leslie DeGroat" (625188352)  
00:08:34.134 --> 00:08:44.274  
In fact, that might be a good recommendation for when you're starting to roll it out is to have that as a separate meeting just so that person's you know, not, you're not overtaken that support coordinator.

58 "Leslie DeGroat" (625188352)  
00:08:44.279 --> 00:08:51.089  
Planning meeting and kind of having that special time with the individual and direct support professional to complete that screening.

59 "Leslie DeGroat" (625188352)  
00:08:51.089 --> 00:09:03.029  
The process also requires that hers be updated throughout the ISP year when changes in status are identified that change any of the 22 Hearst rating items scores.

60 "Leslie DeGroat" (625188352)  
00:09:03.504 --> 00:09:16.194  
For example, if an individual who served has support needs that have changed, um, let's say, God forbid a person had a stroke and then it affected how they eat or walk or any other items.

61 "Leslie DeGroat" (625188352)  
00:09:16.434 --> 00:09:29.574

You know, with their activities of daily living, the person designated as the writer will update that screen to reflect those changes. And then that that will populate new help or support plans based on the scoring in there.

62 "Leslie DeGroat" (625188352)

00:09:30.534 --> 00:09:33.024

And that will help direct support providers. Um, how to.

63 "Leslie DeGroat" (625188352)

00:09:33.029 --> 00:09:35.579

To how how to support that individual.

64 "Leslie DeGroat" (625188352)

00:09:42.029 --> 00:09:56.274

So, how long does it take on average to enter the information for a health risk screen? Well, on average, the health risk screen takes 30 to 45 minutes to enter the information for the person initial screens and screens for individuals who may have complex.

65 "Leslie DeGroat" (625188352)

00:09:56.274 --> 00:09:58.914

Health needs may take a little bit longer. longer

66 "Leslie DeGroat" (625188352)

00:10:04.829 --> 00:10:07.854

So who enters the health risk screen information for the person,

67 "Leslie DeGroat" (625188352)

00:10:08.364 --> 00:10:22.644

the designated hers rater is responsible to Andrew the health risk screen information for that person the rater is responsible throughout the ISP year to keep the hearse updated as it pertains to changes in the person's health status in

68 "Leslie DeGroat" (625188352)

00:10:22.644 --> 00:10:24.864

accordance with the rater training.

69 "Leslie DeGroat" (625188352)

00:10:28.679 --> 00:10:31.014

So who is that designated Hurst Raider?

70 "Leslie DeGroat" (625188352)

00:10:31.584 --> 00:10:43.794

The designated is the assigned residential RN for individuals receiving home and community based wait for residential services for those who are receiving non residential services.

71 "Leslie DeGroat" (625188352)

00:10:44.094 --> 00:10:47.484

The support coordinator assigned to that person will be the rater.

72 "Leslie DeGroat" (625188352)

00:10:47.819 --> 00:10:52.859  
So, for residential services, it will be the assigned residential RN.

73 "Leslie DeGroat" (625188352)  
00:10:54.269 --> 00:10:59.069  
We will act as the reader.

74 "Leslie DeGroat" (625188352)  
00:10:59.364 --> 00:11:08.874  
So, who should be present to assist the reader with information to conduct the hers process. So, the, the person for whom the health risk screen applies.

75 "Leslie DeGroat" (625188352)  
00:11:08.874 --> 00:11:19.104  
So, the individuals serve, we want to encourage that person to be able to participate to the best, you know, to just to the cover level best of their abilities. Because it is, you know, it's all it is all about them.

76 "Leslie DeGroat" (625188352)  
00:11:19.494 --> 00:11:29.004  
And so, you know, any participation from that person is very important anyone that the person request to participate to assist with information pertaining to their current health.

77 "Leslie DeGroat" (625188352)  
00:11:29.664 --> 00:11:43.194  
So, if the individual wants someone to be with him, during during the screen, that's perfectly acceptable. This should also definitely include a direct support professional that knows the person very well.

78 "Leslie DeGroat" (625188352)  
00:11:44.034 --> 00:11:50.124  
That's for when the person is receiving residential services. Of course. And then if there's any other kind of.

79 "Leslie DeGroat" (625188352)  
00:11:50.429 --> 00:11:58.554  
France family or other people that might be able to answer questions related to their activities of daily living. They, they may come as well.

80 "Leslie DeGroat" (625188352)  
00:11:58.824 --> 00:12:06.564  
But the core group is the RN rater individuals receiving services and then the direct support professional who knows them? Well.

81 "Leslie DeGroat" (625188352)  
00:12:06.899 --> 00:12:10.949  
Um, now let's see.

82 "Leslie DeGroat" (625188352)  
00:12:17.219 --> 00:12:20.879  
Okay, now I'm going to turn it over to.

83 "Leslie DeGroat" (625188352)  
00:12:20.879 --> 00:12:23.999  
To talk about, um.

84 "Leslie DeGroat" (625188352)  
00:12:23.999 --> 00:12:29.459  
The, um, oh, here no, I'm not quite ready yet. Sorry about that. I'm jumping ahead. You guys.

85 "Leslie DeGroat" (625188352)  
00:12:29.459 --> 00:12:41.069  
Let's see, there we go. Okay sorry about that. Now. I'm gonna turn it over to, to talk about her system access.

86 "Misty Archer" (3373035520)  
00:12:43.439 --> 00:12:48.479  
Thank you Leslie, I'm gonna still the, the folder here.

87 "Misty Archer" (3373035520)  
00:12:48.479 --> 00:12:53.489  
So, how does an agency receive access to the system.

88 "Misty Archer" (3373035520)  
00:12:53.489 --> 00:13:06.959  
Each division contracted provider, whether it be a service provider or targeted case management, aka support coordinator will be required to have at least 1 gatekeeper.

89 "Misty Archer" (3373035520)  
00:13:07.524 --> 00:13:18.744  
The division will work directly with intellect ability, which is a company who created the health risk screening tool and is contracted to be our support with the process.

90 "Misty Archer" (3373035520)  
00:13:19.074 --> 00:13:31.764  
The vision will work directly with intelligibility, support staff to create the provider level gatekeeper account provider level gatekeepers will be provided a user document to outline the MO,

91 "Misty Archer" (3373035520)  
00:13:31.764 --> 00:13:36.594  
Hearst gatekeeper process upon submission of the request to the division.

92 "Misty Archer" (3373035520)  
00:13:37.499 --> 00:13:47.129  
The provider level gatekeeper will then have the ability to request account with intellect ability for the remaining users and their agency.

93 "Misty Archer" (3373035520)  
00:13:52.434 --> 00:13:54.354  
How long is the gatekeeper training?

94 "Misty Archer" (3373035520)

00:13:54.444 --> 00:14:09.024

The gatekeeper training is on average about 30 minutes to complete the purchasing who is in your agencies designated gatekeeper will receive an email from intellectuality with a link to be able to set their

95 "Misty Archer" (3373035520)

00:14:09.024 --> 00:14:20.094

password with their login information with this. They will be able to log in to the system once a gatekeeper logs in. They will have the gatekeeper training come up.

96 "Misty Archer" (3373035520)

00:14:22.349 --> 00:14:36.084

To complete, it will be stored in their training library so they can access to training for a refresher at any time. Also. Each agency can have more than 1 gatekeeper and it it is a good idea to have at least 2 eventually.

97 "Misty Archer" (3373035520)

00:14:36.084 --> 00:14:37.734

So, that way you have a backup.

98 "Misty Archer" (3373035520)

00:14:43.739 --> 00:14:47.279

How long is the training for the role of residential? R. N.

99 "Misty Archer" (3373035520)

00:14:47.514 --> 00:15:00.744

The hers to online radar training, additional Mo, hers training tutorials can take on average 8 to 10 hours total to complete. The trainings are assigned and required completion upon the team members.

100 "Misty Archer" (3373035520)

00:15:00.774 --> 00:15:03.684

Initial 1st, time request to ask.

101 "Misty Archer" (3373035520)

00:15:03.959 --> 00:15:07.709

Access the system for this specific assigned role.

102 "Misty Archer" (3373035520)

00:15:07.709 --> 00:15:16.139

The training is structured so that the team member can work at their own pace to complete the training requirements.

103 "Misty Archer" (3373035520)

00:15:16.139 --> 00:15:27.989

They can pause at any time if needed the training tutorials upon completion will also be available online to the team member for additional review. Anytime throughout the process.

104 "Misty Archer" (3373035520)

00:15:35.579 --> 00:15:49.679

What was the identified residential are enrolled provider access to, upon completion of the required trainings. So, team member will have full edit and view access, which will include the following information for a person.

105 "Misty Archer" (3373035520)

00:15:49.679 --> 00:15:58.079

that they provide the waiver services and supports to and and are assigned in the system

106 "Misty Archer" (3373035520)

00:15:58.079 --> 00:16:12.389

Health for a screen information, applicable, health, risk, support, plan, information, monthly, monthly, residential are in oversight, documentation, medications and diagnosis information.

107 "Misty Archer" (3373035520)

00:16:26.549 --> 00:16:32.549

What is the requested role for identified residential?

108 "Misty Archer" (3373035520)

00:16:32.549 --> 00:16:40.469

Service provider team members, the role for identified residential service provider team member is titled.

109 "Misty Archer" (3373035520)

00:16:40.469 --> 00:16:43.589

Enter disciplinary team member.

110 "Misty Archer" (3373035520)

00:16:51.179 --> 00:16:56.069

How long is the training for the role of interdisciplinary team member?

111 "Misty Archer" (3373035520)

00:16:56.069 --> 00:17:07.374

This training can take on average 1 to 2 hours to complete information regarding the Hearst, including a 7 minute. Video will be provided additional online training.

112 "Misty Archer" (3373035520)

00:17:07.374 --> 00:17:11.664

Tutorials will be provided to the identified team members.

113 "Misty Archer" (3373035520)

00:17:11.909 --> 00:17:22.799

The trainings are assigned and require completion upon the team members initial 1st, time request to access the system for the specific the signed role.

114 "Misty Archer" (3373035520)

00:17:24.209 --> 00:17:31.439

The training is structured so that the team member can work at their own pace to complete the training.

115 "Misty Archer" (3373035520)

00:17:31.439 --> 00:17:42.659

Requirements the training tutorials upon completion will also be available online to the team member for additional review anytime throughout the process.

116 "Misty Archer" (3373035520)

00:17:48.419 --> 00:17:54.779

What was the identified and to disciplinary team member role provide.

117 "Misty Archer" (3373035520)

00:17:55.284 --> 00:18:06.684

Access to, upon completion of their required trainings the team member will have view access, which will include the following information for persons that they provide dmhc DD,

118 "Misty Archer" (3373035520)

00:18:06.714 --> 00:18:10.824

labor services and supports to and are assigned in the system.

119 "Misty Archer" (3373035520)

00:18:12.444 --> 00:18:25.014

Those would be health, risk, screening, information, applicable, health, risk and support plan information monthly, residential are in oversight documentation for persons receiving waiver residential service.

120 "Misty Archer" (3373035520)

00:18:25.614 --> 00:18:34.374

No identified and assigned residential service qualified development of disability. Professionals will have edit access and they are.

121 "Misty Archer" (3373035520)

00:18:34.649 --> 00:18:41.669

Residential oversight, monthly documentation module to provide their monthly signature.

122 "Misty Archer" (3373035520)

00:18:43.709 --> 00:18:50.939

Now, I'll turn it back over to Leslie to talk about the health risk support plans.

123 "Leslie DeGroat" (625188352)

00:19:00.959 --> 00:19:10.889

Humidity all right health risk, support plans. What is a healthcare support plan or.

124 "Leslie DeGroat" (625188352)

00:19:10.889 --> 00:19:14.519

Well, the process includes.

125 "Leslie DeGroat" (625188352)

00:19:14.519 --> 00:19:17.549

Um.

126 "Leslie DeGroat" (625188352)

00:19:18.204 --> 00:19:30.834

It includes design standardized, electronic health, risk, support, plan, templates and the intellect ability or Mo, DD her system, which will support the team with identification of implementation strategies to mitigate risk and improve health outcomes.

127 "Leslie DeGroat" (625188352)

00:19:31.194 --> 00:19:40.194

The completion of the hearse, and any applicable will align with the individual's annual individualized support plan meeting, as we discussed a little bit ago.

128 "Leslie DeGroat" (625188352)

00:19:42.809 --> 00:19:46.589

So when is a completed.

129 "Leslie DeGroat" (625188352)

00:19:48.029 --> 00:19:54.384

The hers upon completion assigned scores to 22 health and behavior related rating items, such as eating ambulation.

130 "Leslie DeGroat" (625188352)

00:19:54.384 --> 00:20:03.504

It deals with different kind of disease processes, like gastrointestinal and behavioral manifestations just different things of that nature.

131 "Leslie DeGroat" (625188352)

00:20:03.504 --> 00:20:18.024

So, anyway, each rating item, each of those items scoring a 3 or higher will trigger the need for the team to complete the applicable health risk support plan template for that rating item the individual and their team have the option to access. access

132 "Leslie DeGroat" (625188352)

00:20:18.029 --> 00:20:24.654

Complete a specific health risk support plan for any rating item that scores below a 3.

133 "Leslie DeGroat" (625188352)

00:20:24.774 --> 00:20:33.624

it's required for 3 or higher, but you can always do, do 1 if someone you think might benefit from having that completed.

134 "Leslie DeGroat" (625188352)

00:20:34.224 --> 00:20:44.904

They completed healthcare support plan will include the incorporation of service and training considerations identified by the Hearst to mitigate identified areas of health and behavioral risk.

135 "Leslie DeGroat" (625188352)

00:20:45.204 --> 00:21:00.054

The completed health risks, support plans will serve as an attached component of the healthy living section of the ISP in order to be used as

an educational or training resource for team members, providing direct support and services to the individual.

136 "Leslie DeGroat" (625188352)

00:21:00.444 --> 00:21:03.864

The completion of the hearse in any applicable as.

137 "Leslie DeGroat" (625188352)

00:21:03.959 --> 00:21:09.869

Said earlier that will align with the individuals annual individualized support plan meeting.

138 "Leslie DeGroat" (625188352)

00:21:20.099 --> 00:21:34.014

So who completes and participates in the process, the designated hrstd rater is responsible to enter the healthcare support plan information for the person. So for residential service providers, it will be the RN rater.

139 "Leslie DeGroat" (625188352)

00:21:35.004 --> 00:21:49.494

You would also want the individual for whom the screening is being completed. So, you'll be completing these health risk support plans. You'll want the individual to participate as much as they can cause. This is what you're doing is identifying areas of the health risk.

140 "Leslie DeGroat" (625188352)

00:21:50.099 --> 00:22:01.794

And you're indicating what kind of needs the person may require in order to safely E, safely emulate. This will all be listed out on these health risk support plans.

141 "Leslie DeGroat" (625188352)

00:22:02.064 --> 00:22:16.614

So that you can hand 1 to a direct support, professional, or whomever is providing support to the person. And see exactly how you need to support this person. Like, let's say, I'm an individual receiving services and perhaps I eat very quickly.

142 "Leslie DeGroat" (625188352)

00:22:16.614 --> 00:22:19.404

I'm a choking risk. So maybe 1 of the supports is.

143 "Leslie DeGroat" (625188352)

00:22:19.944 --> 00:22:32.544

A person needs to sit sit near the me while I'm eating in to slow down. Keep me to take drinks before bites that. Well, that's the kind of thing that you'll see on these health risk support plans.

144 "Leslie DeGroat" (625188352)

00:22:32.784 --> 00:22:35.454

Those tidbits on how on keeping people safe.

145 "Leslie DeGroat" (625188352)

00:22:36.624 --> 00:22:48.384

And decrease risk and decrease stabilization. So I digress. So, you'll have there are in radar, you know, indicating these things in the, in the system.

146 "Leslie DeGroat" (625188352)

00:22:48.564 --> 00:23:02.364

You'll have the individuals serve, they'll provide input as they can, and also a direct support professional who knows that person. Well, and then if there is somebody else that the individual, or or your team thinks that would be necessary to be be there at the table.

147 "Leslie DeGroat" (625188352)

00:23:02.364 --> 00:23:04.674

Then that that's totally fine as well.

148 "Leslie DeGroat" (625188352)

00:23:10.199 --> 00:23:15.299

Now, we'll talk a little bit about what's called the Hearst clinical review process.

149 "Leslie DeGroat" (625188352)

00:23:17.609 --> 00:23:26.214

So, when the healthcare screen information for a person has an identified healthcare level of 3 or above well, person can be a 1 or 2,

150 "Leslie DeGroat" (625188352)

00:23:26.214 --> 00:23:33.384

which is minimal risk identified 3 or 4 is moderate and then 5 or 6 is very high risk.

151 "Leslie DeGroat" (625188352)

00:23:33.654 --> 00:23:45.924

So, those, that rate a 3 are higher level of 3 or higher, um, will require another nurse to look at that screening. And that's called a hearse clinical review.

152 "Leslie DeGroat" (625188352)

00:23:46.229 --> 00:23:55.829

The host is finalized or completed once the hers clinical reviewer has reviewed and agrees with a completed screen.

153 "Leslie DeGroat" (625188352)

00:23:55.974 --> 00:24:09.504

Note the process to reach fully rated or agreed upon status, may require communication between the assigned our host rater, or the RnD writer and a hearse clinical reviewer for residential waiver participants.

154 "Leslie DeGroat" (625188352)

00:24:09.504 --> 00:24:12.054

The clinical reviewer will be the regional office.

155 "Leslie DeGroat" (625188352)

00:24:12.329 --> 00:24:23.574

Quality programs, or we're starting to call them quality programs we're referring to them as that, but you'll know them as the quality enhancement our end anyway, it's the regional office are in.

156 "Leslie DeGroat" (625188352)

00:24:24.324 --> 00:24:35.934

They will do a quality check on the Hearst or the screening rating, according to their training to see if the notations made in the screen, support the score for each rating item. The timeline for this review.

157 "Leslie DeGroat" (625188352)

00:24:35.934 --> 00:24:42.324

And finalization of the screen is 14 business days. And there there will be notifications indicated.

158 "Leslie DeGroat" (625188352)

00:24:42.329 --> 00:24:50.609

Back and forth, when, you know, they need to address, um, go get back in there and look at that. Um, so all of these items.

159 "Leslie DeGroat" (625188352)

00:24:50.609 --> 00:25:04.529

Uh, that we were talking about follow a timeline, as we said earlier, that aligns with the ISP implementation so that the screen and healthcare support plans are completed prior to the ISP implementation month for the new plan. Here.

160 "Leslie DeGroat" (625188352)

00:25:10.614 --> 00:25:25.554

So, as I just mentioned the assigned regional office quality program, or will fulfill the role of clinical reviewer, for the individuals receiving residential services, and if just, you know, just for those receiving non,

161 "Leslie DeGroat" (625188352)

00:25:25.554 --> 00:25:36.834

residential services, the support coordinator will be the reader. And there are a team of RMS that work for the company intellect ability who, whose are contracted.

162 "Leslie DeGroat" (625188352)

00:25:37.409 --> 00:25:47.639

A company that created the hearse and the process with us anyway, they have our ends that we'll be looking at those nonresidential ones. That's just but for residential.

163 "Leslie DeGroat" (625188352)

00:25:47.639 --> 00:25:51.299

The rater is the residential or oversight R. N.

164 "Leslie DeGroat" (625188352)

00:25:51.299 --> 00:25:55.649

And the clinical reviewer is the regional office R and that's assigned.

165 "Leslie DeGroat" (625188352)

00:26:00.659 --> 00:26:15.474

So, what is the residential RN, monthly oversight documentation module now? This will be housed in the her system as well. The module provides the current residential or an oversight documentation requirements in an electronic format.

166 "Leslie DeGroat" (625188352)

00:26:15.894 --> 00:26:19.074

The assigned residential RN, or oversight RN.

167 "Leslie DeGroat" (625188352)

00:26:19.409 --> 00:26:32.279

who acts as the rater they'll go in the system and they'll be required to initiate and complete ongoing monthly documentation in the module the month following the completion of identified health risk support plans

168 "Leslie DeGroat" (625188352)

00:26:32.724 --> 00:26:37.884

If no helper support plans are identified upon completion of the Hearst screen rating.

169 "Leslie DeGroat" (625188352)

00:26:38.124 --> 00:26:48.384

The assigned residential RN rater in the system will be required to initiate and complete ongoing monthly documentation in the module the month following the completion of the Hearst.

170 "Leslie DeGroat" (625188352)

00:26:56.069 --> 00:26:59.694

So, where should I submit agency interest in participation?

171 "Leslie DeGroat" (625188352)

00:27:00.324 --> 00:27:14.394

Please, if you're interested, um, please submit your request to begin implementation in any questions pertaining to the process to Mo, DD, Hearst project at dot dot. Gov.

172 "Leslie DeGroat" (625188352)

00:27:14.784 --> 00:27:20.184

And I believe cat has put that in the chat for you all you can copy and paste it. Um.

173 "Leslie DeGroat" (625188352)

00:27:20.874 --> 00:27:33.564

And as I said earlier beginning, next month, in October, we will have a monthly implementation meeting for residential service providers that we will forward an invitation to you if you wish to move forward.

174 "Leslie DeGroat" (625188352)

00:27:33.774 --> 00:27:40.374

And we can discuss next steps for getting that process going, um, for you.

175 "Leslie DeGroat" (625188352)  
00:27:43.799 --> 00:27:47.009  
So, thank you so much for joining today's webinar.

176 "Leslie DeGroat" (625188352)  
00:27:49.049 --> 00:28:03.654  
Additional information pertaining to the process may be accessed at. You can see on the screen there. H. T. T. P. S. colon forward slash forward, slash dot dot Gov. Forward slash.

177 "Leslie DeGroat" (625188352)  
00:28:04.889 --> 00:28:08.879  
Dash disabilities forward slash Hearst.

178 "Leslie DeGroat" (625188352)  
00:28:08.879 --> 00:28:16.709  
Dash project, thank you all for attending this afternoon.

179 "Leslie DeGroat" (625188352)  
00:28:16.709 --> 00:28:25.469  
Please put questions in the chat as Kat said, we will formulate a question and answers document that we'll go with this recording.

180 "Leslie DeGroat" (625188352)  
00:28:25.469 --> 00:28:32.304  
And, um, you all just have a great afternoon and appreciate you joining us.
