## Crisis Assistance

10-10-2021

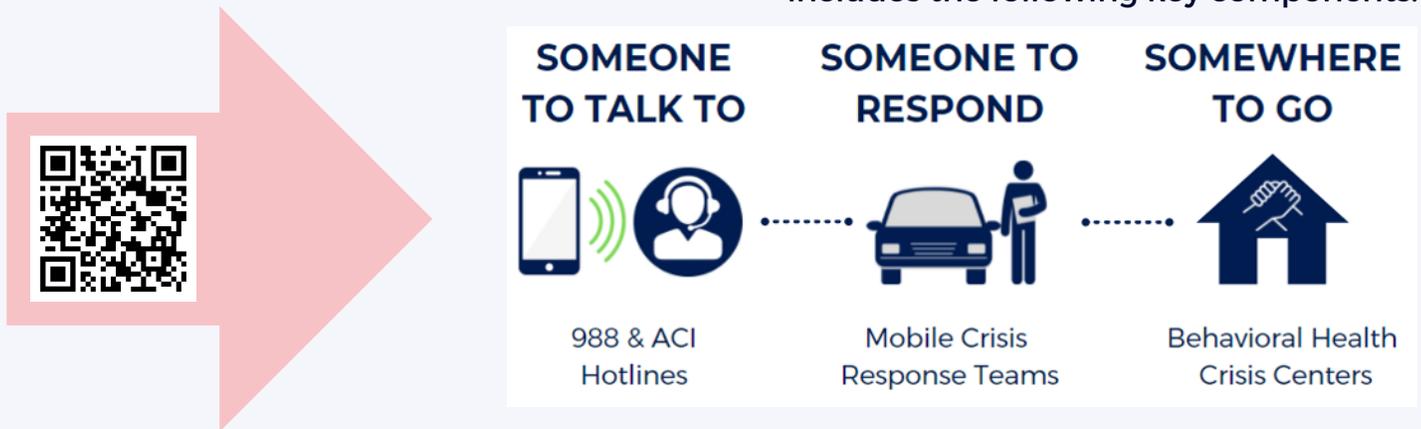

### What do we know?

Historically, there are many barriers for a person when they are in crisis, including: workforce challenges, timely response in rural areas, and utilization and/or awareness of services.

### What is No-Wrong-Door?

No-Wrong-Door is an integrated crisis system that aims to overcome these barriers and includes the following key components:

Scan the QR Code for more about crisis assistance.

### When should each key component be used?

| Applying Best Practices in Missouri |                                |  |
|-------------------------------------|--------------------------------|--|
| Crisis Key Components               | Physical Health                | Behavioral Health                            |
| Someone to talk to                  | 911 Dispatch                   | 988 & Access Crisis Intervention (ACI) Lines |
| Someone to respond                  | EMS/Fire/Law Enforcement       | Mobile Crisis Response Teams                 |
| Somewhere to go                     | Hospital Emergency Departments | Behavioral Health Crisis Centers             |
