

WEBVTT

1 "Duane Shumate" (2609231104)

00:00:00.000 --> 00:00:03.269

On the director of employment community engagement.

2 "Duane Shumate" (2609231104)

00:00:03.269 --> 00:00:10.259

For the division, this is the 2nd, um, webinar that we've done on unemployment, paid for reporting data collection.

3 "Duane Shumate" (2609231104)

00:00:10.259 --> 00:00:14.909

The last 1 was completed last week and at the conclusion of this webinar.

4 "Duane Shumate" (2609231104)

00:00:14.909 --> 00:00:20.460

I will post the link where you can, um, view, uh, either a recording of today's webinar.

5 "Duane Shumate" (2609231104)

00:00:20.460 --> 00:00:24.270

For last week's, uh, in case, you need to share it with other.

6 "Duane Shumate" (2609231104)

00:00:24.270 --> 00:00:31.230

Individuals with whom you work, uh, it is the exact same content. So if you did participate last week, uh, welcome back.

7 "Duane Shumate" (2609231104)

00:00:31.230 --> 00:00:34.650

But I will also apologize if it seems redundant.

8 "Duane Shumate" (2609231104)

00:00:34.650 --> 00:00:37.740

Because it is the same, uh, presentation.

9 "Duane Shumate" (2609231104)

00:00:37.740 --> 00:00:44.700

So, with that, um, we'll go ahead and get started. So today's is a little bit more detailed specifically on the employment pay for reporting.

10 "Duane Shumate" (2609231104)

00:00:44.700 --> 00:00:49.800

Simply because in the red cap database that we're using for value based payment.

11 "Duane Shumate" (2609231104)

00:00:49.800 --> 00:00:54.330

Um, it is also serving as the primary collection site.

12 "Duane Shumate" (2609231104)

00:00:54.330 --> 00:00:58.110

For all of the data associated with employment pay for reporting.

13 "Duane Shumate" (2609231104)

00:00:58.110 --> 00:01:01.290

So, that's why we have a more detailed session for this.

14 "Duane Shumate" (2609231104)

00:01:01.290 --> 00:01:05.910

So, that way, hopefully, employment providers are able to get a much more thorough understanding.

15 "Duane Shumate" (2609231104)

00:01:05.910 --> 00:01:15.390

Of how this website work so, with that, I'll move on to the next slide.

So today's agenda is just a real brief overview of red cap.

16 "Duane Shumate" (2609231104)

00:01:15.390 --> 00:01:18.810

How to go about getting user access for.

17 "Duane Shumate" (2609231104)

00:01:18.810 --> 00:01:22.530

Ways to navigate through with.

18 "Duane Shumate" (2609231104)

00:01:22.530 --> 00:01:30.000

And then just how to access the individual, uh, incentive, data collection, um, pages within that website.

19 "Duane Shumate" (2609231104)

00:01:30.000 --> 00:01:35.430

We'll go through and do a live demonstration. We won't do a super deep dive within.

20 "Duane Shumate" (2609231104)

00:01:35.430 --> 00:01:39.060

Each of the reports themselves, but we will bring them up.

21 "Duane Shumate" (2609231104)

00:01:39.060 --> 00:01:48.780

Uh, we'll kind of show the data that's being collected, but because much of those data is driven by business rules and how you will answer those questions.

22 "Duane Shumate" (2609231104)

00:01:48.780 --> 00:01:51.810

It's impossible for us to go through all potential.

23 "Duane Shumate" (2609231104)

00:01:51.810 --> 00:01:55.020

Um, you know, combinations and permutations.

24 "Duane Shumate" (2609231104)

00:01:55.020 --> 00:01:59.640

But we'll go through to where, uh, each of the main highlighted content areas.

25 "Duane Shumate" (2609231104)

00:01:59.640 --> 00:02:03.630

Uh, are being covered for each of the 5, uh, employment services.

26 "Duane Shumate" (2609231104)

00:02:03.630 --> 00:02:10.170

Then also, we'll just do a little brief overview of the revised provider contract.

27 "Duane Shumate" (2609231104)

00:02:10.170 --> 00:02:13.290

A language that is associated with this initiative.

28 "Duane Shumate" (2609231104)

00:02:13.290 --> 00:02:16.980

The data collection, timeline, and then share resources.

29 "Duane Shumate" (2609231104)

00:02:16.980 --> 00:02:21.300

Uh, to better help, you learn how to navigate red.

30 "Duane Shumate" (2609231104)

00:02:22.710 --> 00:02:26.910

As cat said, if you would please ask your questions in the chat box.

31 "Duane Shumate" (2609231104)

00:02:26.910 --> 00:02:34.710

Please include that to be to all panelists as we also have Rachel mosinee on, who is 1 of our researching analyst.

32 "Duane Shumate" (2609231104)

00:02:34.710 --> 00:02:38.250

And she is the architect of the red cap site. So if you.

33 "Duane Shumate" (2609231104)

00:02:38.250 --> 00:02:45.420

Uh, post questions and the chat box please select all panelists of both Rachel and I can see those questions.

34 "Duane Shumate" (2609231104)

00:02:48.360 --> 00:02:55.170

Okay, so red cap, what is red? Um, you've heard us talk a lot about red cap over the last couple of months.

35 "Duane Shumate" (2609231104)

00:02:55.170 --> 00:02:59.490

Red cap cap is simply just an online data collection tool.

36 "Duane Shumate" (2609231104)

00:02:59.490 --> 00:03:04.110

It's a site that many institutions of higher Ed and other public agencies use.

37 "Duane Shumate" (2609231104)

00:03:04.110 --> 00:03:08.970

To collect data and so essentially it's a secure website.

38 "Duane Shumate" (2609231104)

00:03:08.970 --> 00:03:12.690

That, uh, individual users are granted access to.

39 "Duane Shumate" (2609231104)

00:03:12.690 --> 00:03:17.430

Using their own individually assigned user accounts.

40 "Duane Shumate" (2609231104)

00:03:17.430 --> 00:03:27.115

You can add it to your favorites and your web browser. So, in that way, each quarter, when you're completing employment reporting, you can simply go back to that.

41 "Duane Shumate" (2609231104)

00:03:27.115 --> 00:03:36.415

Um, favorite web browser tab, bring it open, uh, log back in and then complete your reporting again. It is a fully secure website.

42 "Duane Shumate" (2609231104)

00:03:36.720 --> 00:03:44.580

Um, and, um, it's 1 that is able to be accessed through desktops, uh, tablets as well as smartphones.

43 "Duane Shumate" (2609231104)

00:03:48.300 --> 00:03:55.590

So, did request user access uh, the hyperlink that appears on the page is the link that I would use to get access.

44 "Duane Shumate" (2609231104)

00:03:55.590 --> 00:04:00.690

Now, the portal itself is not opening until next Tuesday. The 17.

45 "Duane Shumate" (2609231104)

00:04:00.690 --> 00:04:04.650

So, if you do attempt to, uh, select that link currently.

46 "Duane Shumate" (2609231104)

00:04:04.650 --> 00:04:10.140

Uh, you won't actually be able to, um, have a user account, uh, created yet.

47 "Duane Shumate" (2609231104)

00:04:10.140 --> 00:04:13.740

Uh, but, uh, that is where you would want to visit.

48 "Duane Shumate" (2609231104)

00:04:13.740 --> 00:04:19.620

Next Tuesday to begin doing uploading of information into the redcap portal.

49 "Duane Shumate" (2609231104)

00:04:19.620 --> 00:04:24.480

There's also a QR code that could be used in addition to the hyperlink.

50 "Duane Shumate" (2609231104)

00:04:24.480 --> 00:04:28.079

And on this screen, but it's also showing on the right hand side.

51 "Duane Shumate" (2609231104)

00:04:28.079 --> 00:04:31.799

Is when you go in for the 1st, time as a provider agency.

52 "Duane Shumate" (2609231104)

00:04:31.799 --> 00:04:35.069

Uh, it's going to ask you to enter your contact name.

53 "Duane Shumate" (2609231104)

00:04:35.069 --> 00:04:38.669

Uh, your 1st name, your last name as well as your email address.

54 "Duane Shumate" (2609231104)

00:04:38.669 --> 00:04:42.149

And then your job title, and that's information that's collected.

55 "Duane Shumate" (2609231104)

00:04:42.149 --> 00:04:46.949

So, if we do have questions about into the reports that are uploaded.

56 "Duane Shumate" (2609231104)

00:04:46.949 --> 00:04:50.489

And entered that we know who to contact to.

57 "Duane Shumate" (2609231104)

00:04:50.489 --> 00:04:53.699

Uh, clean up, uh, what may be some, um.

58 "Duane Shumate" (2609231104)

00:04:53.699 --> 00:05:04.439

You know, accidental data entry so when you get to the red tab site, and we will show this in a little bit more detail later.

59 "Duane Shumate" (2609231104)

00:05:04.439 --> 00:05:08.669

But when you get to the red cap site, you'll see at the top where it will say my projects.

60 "Duane Shumate" (2609231104)

00:05:08.669 --> 00:05:13.079

When you click my projects, then you'll see a list.

61 "Duane Shumate" (2609231104)  
00:05:13.079 --> 00:05:16.079  
Of the various value based payment incentive.

62 "Duane Shumate" (2609231104)  
00:05:16.079 --> 00:05:28.139  
That you have a request access for so when you're requesting your user access, you will also indicate which of the value based payments that you're requesting access for, to be able to complete data entry.

63 "Duane Shumate" (2609231104)  
00:05:28.139 --> 00:05:32.789  
So, for today's example, we are talking about the employment pay for reporting.

64 "Duane Shumate" (2609231104)  
00:05:32.789 --> 00:05:36.569  
And so you'll see the 2nd line on the screen here.

65 "Duane Shumate" (2609231104)  
00:05:36.569 --> 00:05:40.439  
Um, 1st, 1 shows team supports incentive payments.

66 "Duane Shumate" (2609231104)  
00:05:40.439 --> 00:05:43.469  
And the 2nd, 1, is the employment pay for reporting.

67 "Duane Shumate" (2609231104)  
00:05:43.469 --> 00:05:46.799  
But again, each of the incentives will appear.

68 "Duane Shumate" (2609231104)  
00:05:46.799 --> 00:05:56.969  
For those, which you've requested access, once you select the incentive that you're updating records for, you'll, uh, select ad, edit records.

69 "Duane Shumate" (2609231104)  
00:05:56.969 --> 00:06:01.169  
And then, once you do that, you'll have a pop up that says, add new record.

70 "Duane Shumate" (2609231104)  
00:06:01.169 --> 00:06:06.629  
You'll select that, and then you will actually be into that particular incentive.

71 "Duane Shumate" (2609231104)  
00:06:06.629 --> 00:06:12.329  
And it will identify for you, uh, that you need to select the reporting time period.

72 "Duane Shumate" (2609231104)  
00:06:12.329 --> 00:06:17.159

For, which are completing data collection on and then you can begin to see.

73 "Duane Shumate" (2609231104)

00:06:17.159 --> 00:06:21.389

Uh, each of the other corresponding forms that you will need to complete.

74 "Duane Shumate" (2609231104)

00:06:21.389 --> 00:06:25.169

Um, and again we'll go through this a little bit more detail.

75 "Duane Shumate" (2609231104)

00:06:25.169 --> 00:06:28.979

When we do the live demonstration.

76 "Duane Shumate" (2609231104)

00:06:28.979 --> 00:06:37.799

So, again, and navigating red cap, it's just a simple matter of doing, add and edit records. Once you have an initial record in there.

77 "Duane Shumate" (2609231104)

00:06:37.799 --> 00:06:43.139

It will give you the opportunity to go back and continue to add to that particular record.

78 "Duane Shumate" (2609231104)

00:06:43.139 --> 00:06:54.629

And simply, you know, each new quarter, you would just go back into that same record, select a new quarter for which you completed the reporting for and then begin to add to it. So you would not need to.

79 "Duane Shumate" (2609231104)

00:06:54.629 --> 00:06:59.009

Re, select your provider information on multiple times.

80 "Duane Shumate" (2609231104)

00:07:01.259 --> 00:07:07.079

And I see in the chat box, that question inquiring if these slides and instructions will be shared with everyone.

81 "Duane Shumate" (2609231104)

00:07:07.079 --> 00:07:10.949

Uh, these will be uploaded to the training hyperlink.

82 "Duane Shumate" (2609231104)

00:07:10.949 --> 00:07:14.369

That, uh, cat posted in the chat box.

83 "Duane Shumate" (2609231104)

00:07:14.369 --> 00:07:18.569

So, when you go to that hyperlink, not only will you be able to view the recording of this.

84 "Duane Shumate" (2609231104)

00:07:18.569 --> 00:07:21.839

That you'll also be able to get a copy of this PowerPoint.

85 "Duane Shumate" (2609231104)

00:07:21.839 --> 00:07:31.169

And once we get the QA documents completed, those will also be housed there as well as a copy of the transcript of today's webinar.

86 "Duane Shumate" (2609231104)

00:07:32.489 --> 00:07:41.219

So, with redcap, uh, we have tested it in both edge and Chrome. Uh, so that is the preferred browser to be using when, when accessing it.

87 "Duane Shumate" (2609231104)

00:07:41.219 --> 00:07:46.409

Uh, there are training videos that are available out there that have been developed by red cap.

88 "Duane Shumate" (2609231104)

00:07:46.409 --> 00:07:50.609

That you can complete and the other thing within red cap.

89 "Duane Shumate" (2609231104)

00:07:50.609 --> 00:07:55.349

Is there is this ability to be able to identify whether you fully completed all the data.

90 "Duane Shumate" (2609231104)

00:07:55.349 --> 00:07:58.439

In each, um, in each template or not.

91 "Duane Shumate" (2609231104)

00:07:58.439 --> 00:08:04.829

Uh, when the red light appears on the dashboard, that means that there's still additional work that needs to be completed.

92 "Duane Shumate" (2609231104)

00:08:04.829 --> 00:08:09.599

When you have completed all the data elements and save it.

93 "Duane Shumate" (2609231104)

00:08:09.599 --> 00:08:13.079

You'll get the green light indicating that it has been completed.

94 "Duane Shumate" (2609231104)

00:08:13.079 --> 00:08:17.339

The yellow unverified is a feature that is available in case.

95 "Duane Shumate" (2609231104)

00:08:17.339 --> 00:08:24.689

You have staff or you yourself are entering data that someone above you is needing to verify it for your agency to ensure.

96 "Duane Shumate" (2609231104)

00:08:24.689 --> 00:08:29.669

That you have accurate information if that is something that you elected use.

97 "Duane Shumate" (2609231104)

00:08:29.669 --> 00:08:35.999

Then you can select it to be verified so that way supervisor or a program manager.

98 "Duane Shumate" (2609231104)

00:08:35.999 --> 00:08:42.269

Uh, window that you've completed all your information, you're just asking them to go in and verify the information.

99 "Duane Shumate" (2609231104)

00:08:42.269 --> 00:08:46.409

And again, we'll kind of demo that, uh, in the live demonstration.

100 "Duane Shumate" (2609231104)

00:08:48.479 --> 00:08:53.279

So, when we talk about employment paper reporting, this is a value based payments. The name.

101 "Duane Shumate" (2609231104)

00:08:53.279 --> 00:08:57.569

That is eligible for all of our contracted employment service providers.

102 "Duane Shumate" (2609231104)

00:08:57.569 --> 00:09:03.029

So any provider who is delivering for planning job, development, benefits, planning.

103 "Duane Shumate" (2609231104)

00:09:03.029 --> 00:09:06.359

For vocational or support employment services.

104 "Duane Shumate" (2609231104)

00:09:06.359 --> 00:09:09.659

Would be eligible for this value based payment incentive.

105 "Duane Shumate" (2609231104)

00:09:09.659 --> 00:09:14.159

The incentives, 55 dollars for each report that is completed.

106 "Duane Shumate" (2609231104)

00:09:14.159 --> 00:09:17.789

And thoroughly uploaded, um, each quarter.

107 "Duane Shumate" (2609231104)

00:09:17.789 --> 00:09:24.089

It is available for each individual service or each ID.

108 "Duane Shumate" (2609231104)

00:09:24.089 --> 00:09:28.529

So, if you have a way where recipient who is receiving 3 employment services.

109 "Duane Shumate" (2609231104)  
00:09:28.529 --> 00:09:36.689

Within a particular quarter, the provider would go in complete report for those 3 particular services.

110 "Duane Shumate" (2609231104)  
00:09:36.689 --> 00:09:43.919

Or that single ID, that circumstance the provider would be eligible for a 165 dollars.

111 "Duane Shumate" (2609231104)  
00:09:43.919 --> 00:09:51.329

Payment for that particular. So again, if an individual's receiving 2 services, you can do, um.

112 "Duane Shumate" (2609231104)  
00:09:51.329 --> 00:09:57.119

The the report for each of the 2 services are doing if they've received 3, 4 or 5.

113 "Duane Shumate" (2609231104)  
00:09:57.119 --> 00:10:01.019

Uh, you know, you would complete a report for each of those services.

114 "Duane Shumate" (2609231104)  
00:10:01.019 --> 00:10:05.879

Or procedure codes on each ID with what you're working.

115 "Duane Shumate" (2609231104)  
00:10:05.879 --> 00:10:11.009

So, obviously, if you are a provider that's working with 101,520 individuals.

116 "Duane Shumate" (2609231104)  
00:10:11.009 --> 00:10:15.749

Unemployment services and they're each receiving multiple employment services.

117 "Duane Shumate" (2609231104)  
00:10:15.749 --> 00:10:21.269

You can begin to see how the incentive amount of incentive payment would begin to stack.

118 "Duane Shumate" (2609231104)  
00:10:27.269 --> 00:10:38.219

Okay, so, as we get into the employment reporting, uh, this particular screen, this is what you would see after you've created user access and you go in.

119 "Duane Shumate" (2609231104)  
00:10:38.219 --> 00:10:46.169

To begin to complete it, you'll see on the screen. All of the information that 1 might be eligible to complete.

120 "Duane Shumate" (2609231104)

00:10:46.169 --> 00:10:49.949

And then you can also see that it also identifies the different quarters.

121 "Duane Shumate" (2609231104)

00:10:49.949 --> 00:10:53.159

In which you would be completing both our reports.

122 "Duane Shumate" (2609231104)

00:10:55.889 --> 00:11:08.129

1 of the 1st things within each of them, uh, that would need to be done. The very 1st, time of logging in is to provide your provider information in this circumstance. What you'll do is after you have your user access.

123 "Duane Shumate" (2609231104)

00:11:08.129 --> 00:11:11.459

You'll like, click a dropdown box.

124 "Duane Shumate" (2609231104)

00:11:11.459 --> 00:11:15.569

That dropdown box, we'll have a list of all the applicable providers.

125 "Duane Shumate" (2609231104)

00:11:15.569 --> 00:11:21.899

For this particular value based payment incentive, you'll find your provider name, select that name.

126 "Duane Shumate" (2609231104)

00:11:21.899 --> 00:11:25.289

And then you will also identify.

127 "Duane Shumate" (2609231104)

00:11:25.289 --> 00:11:33.389

Uh, your 1st name as well as the phone number and email of the person, completing the reports.

128 "Duane Shumate" (2609231104)

00:11:33.389 --> 00:11:38.669

And then at the bottom, when that's all completed, you simply choose the drop down the complete.

129 "Duane Shumate" (2609231104)

00:11:38.669 --> 00:11:42.989

And save and exit the form, and the provider information has now been.

130 "Duane Shumate" (2609231104)

00:11:42.989 --> 00:11:46.529

Uh, completed for that particular, um, reporting.

131 "Duane Shumate" (2609231104)

00:11:49.619 --> 00:11:54.599

When it comes to uploading individual information waiver, participant information.

132 "Duane Shumate" (2609231104)  
00:11:54.599 --> 00:12:01.919

That particular screen, you will simply enter the ID, the individual's 1st name and last name and then mark that as completed.

133 "Duane Shumate" (2609231104)  
00:12:06.479 --> 00:12:11.999

So, in this example, uh, what you can see is, uh, an individual has now gone in and.

134 "Duane Shumate" (2609231104)  
00:12:11.999 --> 00:12:16.409

They've uploaded, uh, a individual waiver participant.

135 "Duane Shumate" (2609231104)  
00:12:16.409 --> 00:12:20.459

So, on the left side of the home screen, you will see the.

136 "Duane Shumate" (2609231104)  
00:12:20.459 --> 00:12:24.659

In this test case, there's not actually a name. It's just a series of numbers.

137 "Duane Shumate" (2609231104)  
00:12:24.659 --> 00:12:29.399

But you will see the ID as well as the individual's, uh, name.

138 "Duane Shumate" (2609231104)  
00:12:29.399 --> 00:12:35.099

Then you can see with the green lights that the individual's already completed the provider information.

139 "Duane Shumate" (2609231104)  
00:12:35.099 --> 00:12:38.639

As well as uploading the individual waiver participants.

140 "Duane Shumate" (2609231104)  
00:12:38.639 --> 00:12:50.909

The ID on which the reporting, and now you can see each order that would be available for reporting and you can see each of the 5 employment services listed.

141 "Duane Shumate" (2609231104)  
00:12:50.909 --> 00:12:54.569

So, you, if you wanted to go in and begin to work on benefits, planning.

142 "Duane Shumate" (2609231104)  
00:12:54.569 --> 00:13:00.359

Uh, you would simply click on the button for benefits planning for the 1st quarter. That is listed.

143 "Duane Shumate" (2609231104)  
00:13:01.559 --> 00:13:06.719  
And once that's click, it will take you into the individual benefits planning report.

144 "Duane Shumate" (2609231104)  
00:13:06.719 --> 00:13:10.169  
At the top of all of our, uh, reporting.

145 "Duane Shumate" (2609231104)  
00:13:10.169 --> 00:13:16.199  
Templates, uh, 1 of the 1st questions is whether or not the individual has, uh, ended the service.

146 "Duane Shumate" (2609231104)  
00:13:16.199 --> 00:13:24.149  
So, again, if someone received billing during the quarter, but they discontinued for, uh, any particular reason, whether it was a.

147 "Duane Shumate" (2609231104)  
00:13:24.149 --> 00:13:28.619  
Successfully they're no longer interested or unfortunately, if they passed.

148 "Duane Shumate" (2609231104)  
00:13:28.619 --> 00:13:35.459  
Uh, you know, we asked that very 1st question on if the individual has end of the service within that quarter or not.

149 "Duane Shumate" (2609231104)  
00:13:35.459 --> 00:13:39.209  
When you select yes or no there, then it will begin to.

150 "Duane Shumate" (2609231104)  
00:13:39.209 --> 00:13:45.359  
Pull in additional questions that, um, follow the business rules as to whether a person.

151 "Duane Shumate" (2609231104)  
00:13:45.359 --> 00:13:53.339  
It's continuing to receive a service or not at the bottom of each screen. There's also an area for a provider of test station.

152 "Duane Shumate" (2609231104)  
00:13:53.339 --> 00:13:58.079  
And this is where the person who's uploading the information will type in their 1st and last name.

153 "Duane Shumate" (2609231104)  
00:13:58.079 --> 00:14:05.399  
As well as select the date of entry, and then they will click the green, uh, area that says, add signature.

154 "Duane Shumate" (2609231104)

00:14:05.399 --> 00:14:09.419

And a window will pop open for the ability to you to do.

155 "Duane Shumate" (2609231104)

00:14:09.419 --> 00:14:15.329

An electronic signature again, we will demo each of these, uh, shortly.

156 "Duane Shumate" (2609231104)

00:14:15.329 --> 00:14:23.429

So, within career planning, this is a separate separate report template. Uh, again, it's got the same 1st question.

157 "Duane Shumate" (2609231104)

00:14:23.429 --> 00:14:27.389

And you can begin to see how the amount and type of content.

158 "Duane Shumate" (2609231104)

00:14:27.389 --> 00:14:30.779

Associated with each report is beginning to vary a little bit.

159 "Duane Shumate" (2609231104)

00:14:30.779 --> 00:14:34.949

Based upon the billable activities associated with that service definition.

160 "Duane Shumate" (2609231104)

00:14:36.359 --> 00:14:41.099

On this screen, uh, it's just a brief little screenshot of the job development.

161 "Duane Shumate" (2609231104)

00:14:41.099 --> 00:14:44.459

Uh, again it looks very similar. We're planning.

162 "Duane Shumate" (2609231104)

00:14:44.459 --> 00:14:47.519

But the billable activities listed are slightly different.

163 "Duane Shumate" (2609231104)

00:14:47.519 --> 00:14:54.089

Because again, it corresponds with the billable activities outlined in the job development service definition.

164 "Duane Shumate" (2609231104)

00:14:54.089 --> 00:14:57.299

Which are different than what was contained within the we're planning.

165 "Duane Shumate" (2609231104)

00:14:57.299 --> 00:15:05.579

Service definition with Pre, vocational, uh, again, a little bit additional information. Um.

166 "Duane Shumate" (2609231104)

00:15:05.579 --> 00:15:10.079

Around start date, and the specific skills that are being developed.

167 "Duane Shumate" (2609231104)

00:15:10.079 --> 00:15:14.129

And a nature of where the individual is that in.

168 "Duane Shumate" (2609231104)

00:15:14.129 --> 00:15:26.849

Progress towards developing that skill and then in support employment, uh, there are questions, you know, that are going to be focused on as individual in the group or individual setting.

169 "Duane Shumate" (2609231104)

00:15:26.849 --> 00:15:33.209

Also, whether or not individual continues to be employed, if they're employed at, with multiple employers.

170 "Duane Shumate" (2609231104)

00:15:33.209 --> 00:15:37.619

What types of benefits may be available from that employer?

171 "Duane Shumate" (2609231104)

00:15:37.619 --> 00:15:43.409

And then towards the bottom of the screen, it begins to get into the specific skills that are being developed.

172 "Duane Shumate" (2609231104)

00:15:43.409 --> 00:15:47.969

And how the individual's progressing towards that skill development.

173 "Duane Shumate" (2609231104)

00:15:47.969 --> 00:15:53.219

So, with that, we are going to walk away from the, um.

174 "Duane Shumate" (2609231104)

00:15:53.219 --> 00:15:58.259

Powerpoint, and we'll actually go into the website, uh, to where we can actually demonstrate.

175 "Duane Shumate" (2609231104)

00:15:58.259 --> 00:16:02.969

Uh, how you would complete, uh, each of these reports and more detailed information.

176 "Duane Shumate" (2609231104)

00:16:02.969 --> 00:16:07.079

On each of these reports, so that's.

177 "Duane Shumate" (2609231104)

00:16:10.799 --> 00:16:16.079

So, just confirmation cap, we're seeing my screen now.

178 "Kat Craig" (1198678272)

00:16:17.969 --> 00:16:21.839

We see the Google screen right now. Okay. Thank you.

179 "Duane Shumate" (2609231104)  
00:16:21.839 --> 00:16:25.529  
So, I bookmarked red cap is 1 of my favorite sites.

180 "Duane Shumate" (2609231104)  
00:16:25.529 --> 00:16:33.149  
So, when I select red cap, uh, it will ask me for my user name. Uh, for me, my username is from an email address.

181 "Duane Shumate" (2609231104)  
00:16:33.149 --> 00:16:44.399  
Then we'll ask me for my password type that incorrectly. Uh, I'm now inside the redcap database.

182 "Duane Shumate" (2609231104)  
00:16:45.629 --> 00:16:49.229  
So, once here, uh, as we talked about in the PowerPoint.

183 "Duane Shumate" (2609231104)  
00:16:49.229 --> 00:16:53.669  
There's a, um, selection option that says my projects.

184 "Duane Shumate" (2609231104)  
00:16:53.669 --> 00:16:59.849  
When you're within my projects, then you will see each of the value based payment incentives.

185 "Duane Shumate" (2609231104)  
00:16:59.849 --> 00:17:07.289  
Which you have requested access, you might, uh, 1st, time of entering, you might actually appear at this homepage.

186 "Duane Shumate" (2609231104)  
00:17:07.289 --> 00:17:11.129  
If that's the case, then you just simply select my projects.

187 "Duane Shumate" (2609231104)  
00:17:11.129 --> 00:17:21.179  
And it will take you to the screen so you can see that you're who you're logged in as, uh, which should only be your information. And then you also see, we have the ability to log out.

188 "Duane Shumate" (2609231104)  
00:17:21.179 --> 00:17:29.279  
Upon completion, so for this demonstration, we are doing the employment pay for reporting side will select employment pay for reporting.

189 "Duane Shumate" (2609231104)  
00:17:29.279 --> 00:17:34.469  
At this point in time I'm now getting to this large screen that's telling me.

190 "Duane Shumate" (2609231104)  
00:17:34.469 --> 00:17:40.979  
This is the division of developmental disabilities, a webpage for value based payment employment reporting.

191 "Duane Shumate" (2609231104)  
00:17:40.979 --> 00:17:45.389  
It looks very busy, but again, if you simply go to add edit records.

192 "Duane Shumate" (2609231104)  
00:17:46.649 --> 00:17:50.729  
It will take you in the 1st screen where you will add a new revenue.

193 "Duane Shumate" (2609231104)  
00:17:50.729 --> 00:17:58.769  
So, when you add a new record, as we discussed earlier, it will let, you know, what you need to be completing.

194 "Duane Shumate" (2609231104)  
00:17:58.769 --> 00:18:02.549  
The 1st thing that has a button appearing is provider information.

195 "Duane Shumate" (2609231104)  
00:18:02.549 --> 00:18:06.299  
So, in this circumstance, I would select that.

196 "Duane Shumate" (2609231104)  
00:18:06.299 --> 00:18:10.679  
And now I come to a spring that's asking me to enter my provider name.

197 "Duane Shumate" (2609231104)  
00:18:10.679 --> 00:18:16.319  
So, I will select this for the purposes of the example of buildings at 1st.

198 "Duane Shumate" (2609231104)  
00:18:16.319 --> 00:18:19.619  
So, it pulls their name in. I will type my name.

199 "Duane Shumate" (2609231104)  
00:18:19.619 --> 00:18:24.989  
Into the contact, I'll enter my phone number.

200 "Duane Shumate" (2609231104)  
00:18:24.989 --> 00:18:28.319  
I E, mail address.

201 "Duane Shumate" (2609231104)  
00:18:28.319 --> 00:18:32.969  
And then I'll mark it as complete and save and exit.

202 "Duane Shumate" (2609231104)  
00:18:34.439 --> 00:18:39.599

Now, it takes me back to the screen, and you can now see the provider information as to bring like.

203 "Duane Shumate" (2609231104)  
00:18:39.599 --> 00:18:43.049  
Indicating that all information has been fully completed.

204 "Duane Shumate" (2609231104)  
00:18:43.049 --> 00:18:47.129  
And now you'll notice that there is a button to be able to enter.

205 "Duane Shumate" (2609231104)  
00:18:47.129 --> 00:18:51.809  
An individual's dmhc ID so when I select that button.

206 "Duane Shumate" (2609231104)  
00:18:53.069 --> 00:19:00.989  
I'm now taking back into the template, I will just simply enter in the individual's ID for whom I'm recording.

207 "Duane Shumate" (2609231104)  
00:19:00.989 --> 00:19:04.109  
And forgiveness for demonstration purposes.

208 "Duane Shumate" (2609231104)  
00:19:04.109 --> 00:19:07.799  
We'll just say this individual's ID number is all once.

209 "Duane Shumate" (2609231104)  
00:19:07.799 --> 00:19:11.129  
I will type in the individual's 1st name.

210 "Duane Shumate" (2609231104)  
00:19:11.129 --> 00:19:15.359  
And in this example, will say the individual's name is rocky.

211 "Duane Shumate" (2609231104)  
00:19:15.359 --> 00:19:24.899  
And that his last name is Pluto again. It does remember, uh, previous data that's been entered. That's why I had the ability to select it.

212 "Duane Shumate" (2609231104)  
00:19:24.899 --> 00:19:30.449  
Through auto fill, but the 1st time that you enter this database, you may need to actually.

213 "Duane Shumate" (2609231104)  
00:19:30.449 --> 00:19:33.719  
Uh, well, you will need to actually type in the information.

214 "Duane Shumate" (2609231104)  
00:19:33.719 --> 00:19:38.939  
So, once I've entered that, uh, I'm going to accidentally forget to mark this as complete.

215 "Duane Shumate" (2609231104)

00:19:38.939 --> 00:19:42.719

So, when I hit save and exit, it takes me back to my home screen.

216 "Duane Shumate" (2609231104)

00:19:42.719 --> 00:19:47.699

But you will see that this is red light meaning that I have forgotten to complete an activity.

217 "Duane Shumate" (2609231104)

00:19:47.699 --> 00:19:51.899

So, when I go back into that red light, um.

218 "Duane Shumate" (2609231104)

00:19:53.249 --> 00:19:59.189

And when I select complete and save an exit, it'll ask me for a reason for change.

219 "Duane Shumate" (2609231104)

00:19:59.189 --> 00:20:02.939

And I'll say, um.

220 "Duane Shumate" (2609231104)

00:20:02.939 --> 00:20:10.559

We got to complete save and exit and now you will see that that light is green as well.

221 "Duane Shumate" (2609231104)

00:20:10.559 --> 00:20:14.699

So, at this point, in time, I've now successfully for.

222 "Duane Shumate" (2609231104)

00:20:14.699 --> 00:20:21.419

Calendar year or fiscal year 23 I've now successfully entered my providers information.

223 "Duane Shumate" (2609231104)

00:20:21.419 --> 00:20:26.069

As well, as a single waiver participants ID number.

224 "Duane Shumate" (2609231104)

00:20:26.069 --> 00:20:33.989

Again, this ID number is all needed for the employment pay for reporting, because we are collecting at the individual level.

225 "Duane Shumate" (2609231104)

00:20:33.989 --> 00:20:39.119

You'll also notice on the screen that at the top here, it's showing me the record number.

226 "Duane Shumate" (2609231104)

00:20:39.119 --> 00:20:43.769

In redcap, it's showing me this individual's number.

227 "Duane Shumate" (2609231104)  
00:20:43.769 --> 00:20:47.159  
As well as their name and my provider agency.

228 "Duane Shumate" (2609231104)  
00:20:47.159 --> 00:20:52.769  
The other thing that you will notice is now these additional buttons have become available.

229 "Duane Shumate" (2609231104)  
00:20:52.769 --> 00:20:57.959  
And that's because I've now completed successfully my provider information.

230 "Duane Shumate" (2609231104)  
00:20:57.959 --> 00:21:04.559  
And my ID number, and it's only giving me the ability to complete that entry.

231 "Duane Shumate" (2609231104)  
00:21:04.559 --> 00:21:09.539  
For those applicable reporting quarters, so I can't go out and begin to complete.

232 "Duane Shumate" (2609231104)  
00:21:09.539 --> 00:21:14.669  
Forms in the future, I can only be completing forms, which are available.

233 "Duane Shumate" (2609231104)  
00:21:14.669 --> 00:21:20.789  
During this reporting period so when our recording period opens on January 17.

234 "Duane Shumate" (2609231104)  
00:21:20.789 --> 00:21:25.079  
You will be able to enter data and receive payment.

235 "Duane Shumate" (2609231104)  
00:21:25.079 --> 00:21:29.399  
Or services delivered from July 1st, through September 30th.

236 "Duane Shumate" (2609231104)  
00:21:29.399 --> 00:21:32.789  
As well, as services that were delivered from October 1st.

237 "Duane Shumate" (2609231104)  
00:21:32.789 --> 00:21:37.679  
December 31st, and I am going to.

238 "Duane Shumate" (2609231104)  
00:21:37.679 --> 00:21:41.819  
I'm not able to see the chat, so, um.

239 "Duane Shumate" (2609231104)

00:21:41.819 --> 00:21:47.699

Uh, or Rachel, if there is any questions that arise in the chat, just please interrupt me.

240 "Duane Shumate" (2609231104)

00:21:47.699 --> 00:21:56.279

So, now I'm going to go in and complete. Let's say this individual receive benefits planning during July through September.

241 "Duane Shumate" (2609231104)

00:21:56.279 --> 00:21:59.789

A fiscal year, 23, which would be last year.

242 "Duane Shumate" (2609231104)

00:21:59.789 --> 00:22:03.149

So, July 1st or September 30th or 22.

243 "Duane Shumate" (2609231104)

00:22:03.149 --> 00:22:10.949

When I click benefits planning, you will see that. I'm now, uh, in on the individual's record.

244 "Duane Shumate" (2609231104)

00:22:10.949 --> 00:22:14.129

The red cap record number.

245 "Duane Shumate" (2609231104)

00:22:14.129 --> 00:22:20.639

And I'm going to get a series of questions that just asked me as the individual ended benefits planning.

246 "Duane Shumate" (2609231104)

00:22:20.639 --> 00:22:23.819

And let's say that the individual did complete that.

247 "Duane Shumate" (2609231104)

00:22:23.819 --> 00:22:27.989

When I select, yes, you'll now see that when I selected that.

248 "Duane Shumate" (2609231104)

00:22:27.989 --> 00:22:31.139

That a series of additional questions opened up.

249 "Duane Shumate" (2609231104)

00:22:31.139 --> 00:22:36.599

So, if I go back and reset that, let's say I select that on accident. I just step reset.

250 "Duane Shumate" (2609231104)

00:22:36.599 --> 00:22:43.019

On the screen, and then I can go back and select yes. Again. And you'll see those questions that drop down.

251 "Duane Shumate" (2609231104)

00:22:43.019 --> 00:22:46.049

If the answer is no, they're not completed it.

252 "Duane Shumate" (2609231104)

00:22:47.249 --> 00:22:52.019

Uh, so far you're seeing no additional questions pop open so that's where.

253 "Duane Shumate" (2609231104)

00:22:52.019 --> 00:22:59.639

Uh, the top question that's in green is really going to drive, you know, uh, the additional questions that you may need to answer.

254 "Duane Shumate" (2609231104)

00:22:59.639 --> 00:23:05.339

So the individual did in services, and let's say the individual ended successfully.

255 "Duane Shumate" (2609231104)

00:23:05.339 --> 00:23:09.149

And what why do we mean by successfully.

256 "Duane Shumate" (2609231104)

00:23:09.149 --> 00:23:13.679

There's guidance language here that you'll see that says select. Yes.

257 "Duane Shumate" (2609231104)

00:23:13.679 --> 00:23:17.939

If the outcomes identified, and the service definition were accomplished.

258 "Duane Shumate" (2609231104)

00:23:17.939 --> 00:23:21.779

And so in the waiver manual and waiver application.

259 "Duane Shumate" (2609231104)

00:23:21.779 --> 00:23:25.379

The outcomes listed for benefits planning is at the individual.

260 "Duane Shumate" (2609231104)

00:23:25.379 --> 00:23:31.799

Had a completed benefits, planning analysis and a recommendation on incentives to utilize.

261 "Duane Shumate" (2609231104)

00:23:31.799 --> 00:23:36.089

So, if you've completed that particular outcome, meaning that they've successfully.

262 "Duane Shumate" (2609231104)

00:23:36.089 --> 00:23:39.359

Completed the benefits planning service you will select yes.

263 "Duane Shumate" (2609231104)

00:23:40.529 --> 00:23:47.849

It'll ask for sort of start date and end date. Uh, and you'll see the note. This is the 1st date which billable activity occurred.

264 "Duane Shumate" (2609231104)

00:23:47.849 --> 00:23:50.999

Let's say that for this individual.

265 "Duane Shumate" (2609231104)

00:23:50.999 --> 00:23:56.909

They started receiving benefits planning, July 11th.

266 "Duane Shumate" (2609231104)

00:23:56.909 --> 00:24:02.669

So, I can scroll back select that date and let's say they completed it August 15th.

267 "Duane Shumate" (2609231104)

00:24:02.669 --> 00:24:07.799

Again, this is auto populating data from what I did in last week's webinar.

268 "Duane Shumate" (2609231104)

00:24:07.799 --> 00:24:12.689

But I'm going to put it on August 15th. I can either use the calendar feature.

269 "Duane Shumate" (2609231104)

00:24:12.689 --> 00:24:16.499

If you scroll to that date, or I can simply enter the date.

270 "Duane Shumate" (2609231104)

00:24:16.499 --> 00:24:22.049

Well.

271 "Duane Shumate" (2609231104)

00:24:24.599 --> 00:24:32.999

So, when I put the end date, you'll see that it automatically calculates the length of time in which the individual will receive that service. So, this is looking at.

272 "Duane Shumate" (2609231104)

00:24:32.999 --> 00:24:39.269

Calendar days, which is fine. Um, the, the main reason we're collecting this data for pay for reporting.

273 "Duane Shumate" (2609231104)

00:24:39.269 --> 00:24:46.139

Is that what we're wanting to do is have a repository of data to eventually, uh, begin to move employment services?

274 "Duane Shumate" (2609231104)

00:24:46.139 --> 00:24:52.379

For a 15 minute unit of service to outcome milestone and additional incentive payments.

275 "Duane Shumate" (2609231104)

00:24:52.379 --> 00:24:55.559

So that's why we're doing this extensive data collection.

276 "Duane Shumate" (2609231104)

00:24:55.559 --> 00:24:59.579

So, we have the information we need for future right? Methodology.

277 "Duane Shumate" (2609231104)

00:24:59.579 --> 00:25:05.369

Uh, to look at moving away from incremental units and paying for dollar figures.

278 "Duane Shumate" (2609231104)

00:25:05.369 --> 00:25:12.899

Based upon activities that have been completed, so it automatically calculates the number of calendar days that the individual received.

279 "Duane Shumate" (2609231104)

00:25:12.899 --> 00:25:17.009

It will ask the number of units delivered this reporting period.

280 "Duane Shumate" (2609231104)

00:25:17.009 --> 00:25:21.179

Let's say the individual received 40 units of benefits planning.

281 "Duane Shumate" (2609231104)

00:25:21.179 --> 00:25:24.719

And then it's going to ask what's the number of cumulative units.

282 "Duane Shumate" (2609231104)

00:25:24.719 --> 00:25:32.939

Delivered during the service, so if this individual happened to received 20 units prior to this reporting, period.

283 "Duane Shumate" (2609231104)

00:25:32.939 --> 00:25:39.719

Then, what I would do is add that 20 units to the 40 units and I'd be putting in a total of 16.

284 "Duane Shumate" (2609231104)

00:25:39.719 --> 00:25:43.169

If the individual had no prior units of service.

285 "Duane Shumate" (2609231104)

00:25:43.169 --> 00:25:48.629

Prior to this reporting, period, that number would simply be the same as the prior number.

286 "Duane Shumate" (2609231104)

00:25:50.129 --> 00:25:56.039

Then we're gonna put in what the individual's earnings goal is. So I put the benefits planning.

287 "Duane Shumate" (2609231104)

00:25:56.039 --> 00:26:00.689

And let's say I've identified that I would like to have 780 dollars a month.

288 "Duane Shumate" (2609231104)

00:26:00.689 --> 00:26:06.449

Of earnings going to ask his individual currently employed.

289 "Duane Shumate" (2609231104)

00:26:06.449 --> 00:26:14.519

And if yes, you'll see, it's going to ask the number of hours to working. And what is their currently hourly.

290 "Duane Shumate" (2609231104)

00:26:14.519 --> 00:26:18.179

If it's no, uh, those questions disappear.

291 "Duane Shumate" (2609231104)

00:26:18.179 --> 00:26:22.229

If it's unknown, you can also see those questions don't up here.

292 "Duane Shumate" (2609231104)

00:26:22.229 --> 00:26:29.759

So, let's say the individual completed benefits planning, and they are now employed and let's say that they're working 20 hours a week.

293 "Duane Shumate" (2609231104)

00:26:29.759 --> 00:26:33.539

And that their current earnings are.

294 "Duane Shumate" (2609231104)

00:26:34.979 --> 00:26:38.399

Sorry, let's say 12 dollars and getting a sense.

295 "Duane Shumate" (2609231104)

00:26:40.469 --> 00:26:47.039

Uh, it's going to ask what type of action did I take as part of benefits planning to verify their actual benefits.

296 "Duane Shumate" (2609231104)

00:26:47.039 --> 00:26:50.039

So, that way, I can be informed in what I'm telling them.

297 "Duane Shumate" (2609231104)

00:26:50.039 --> 00:26:54.269

Uh, we'll check the applicable, uh, resources that I used.

298 "Duane Shumate" (2609231104)

00:26:54.269 --> 00:26:58.379

To verify benefits and then it's going to ask.

299 "Duane Shumate" (2609231104)

00:26:58.379 --> 00:27:02.639

As outlined in the service definition, was they benefits summary analysis.

300 "Duane Shumate" (2609231104)

00:27:02.639 --> 00:27:06.149

Completed and I'll select yes. Or no.

301 "Duane Shumate" (2609231104)

00:27:06.149 --> 00:27:10.109

Wasn't working senior planning completed I'll check yes. Or no.

302 "Duane Shumate" (2609231104)

00:27:10.109 --> 00:27:15.149

And then it's going to ask what work and then these were reviewed or recommended.

303 "Duane Shumate" (2609231104)

00:27:15.149 --> 00:27:19.529

As part of the service delivery, so you would check all that are applicable.

304 "Duane Shumate" (2609231104)

00:27:19.529 --> 00:27:23.009

If none were reviewed, you'd select non, um.

305 "Duane Shumate" (2609231104)

00:27:23.009 --> 00:27:27.359

If you don't know what you're reviewed with the individual and you would select I know.

306 "Duane Shumate" (2609231104)

00:27:27.359 --> 00:27:33.959

Uh, if there's another incentive, um, from social security that you may have reviewed, that's not in this list.

307 "Duane Shumate" (2609231104)

00:27:33.959 --> 00:27:37.709

Then you would select other and you would type in what that in some.

308 "Duane Shumate" (2609231104)

00:27:39.389 --> 00:27:47.069

It's also going to ask were any work incentives actually access as a result of that guidance provided to a benefits planning.

309 "Duane Shumate" (2609231104)

00:27:47.069 --> 00:27:51.029

Again, this is the, the same list of the ones that you may have recommended.

310 "Duane Shumate" (2609231104)

00:27:51.029 --> 00:27:54.359

So, then you'll identify the ones that may have actually been the access.

311 "Duane Shumate" (2609231104)

00:27:56.639 --> 00:28:03.779

And it will ask whether or not the individual is utilizing or had recommendations to utilize enable account. Yes. Or no.

312 "Duane Shumate" (2609231104)

00:28:05.039 --> 00:28:14.399

And then upon completion of the benefits planning, what service will the individual be transitioned to? So you have each of the waiver funded services listed here.

313 "Duane Shumate" (2609231104)

00:28:14.399 --> 00:28:20.789

Maybe, they're moving on to both rehab or rehab services from the blind. Maybe they're going to college or it.

314 "Duane Shumate" (2609231104)

00:28:20.789 --> 00:28:26.369

Trade school that you'll select which service the individual be transitioned to.

315 "Duane Shumate" (2609231104)

00:28:26.369 --> 00:28:31.319

So, since this individual, uh, is employed in the example that we've provided.

316 "Duane Shumate" (2609231104)

00:28:31.319 --> 00:28:34.469

We're going to say he's moving on to support unemployment individual.

317 "Duane Shumate" (2609231104)

00:28:34.469 --> 00:28:39.419

The last question is what percent of the service was delivered.

318 "Duane Shumate" (2609231104)

00:28:39.419 --> 00:28:44.459

Using virtual delivery, uh, let's say 25% of the units.

319 "Duane Shumate" (2609231104)

00:28:44.459 --> 00:28:50.159

Uh, we actually met with the individual through zoom or or, uh, Microsoft teams.

320 "Duane Shumate" (2609231104)

00:28:50.159 --> 00:28:54.659

So, we'll select that and then we have the test station language.

321 "Duane Shumate" (2609231104)

00:28:54.659 --> 00:28:59.579

I'll type in my name, I'll put today's date.

322 "Duane Shumate" (2609231104)

00:28:59.579 --> 00:29:03.479

And when I was completed, and then I will do my electronic signature.

323 "Duane Shumate" (2609231104)

00:29:06.929 --> 00:29:14.909

Save my signature marked as complete, because I believe I've completed everything then I will save an exit.

324 "Duane Shumate" (2609231104)

00:29:17.549 --> 00:29:20.999

And it's actually telling me that I forgot the point of field.

325 "Duane Shumate" (2609231104)

00:29:20.999 --> 00:29:25.019

So, I can either ignore that, leave the record. And if I do that.

326 "Duane Shumate" (2609231104)

00:29:25.019 --> 00:29:28.349

I'll go back to that home screen and we'll give me a red light thing.

327 "Duane Shumate" (2609231104)

00:29:28.349 --> 00:29:32.069

That, um, then I forgot to complete something.

328 "Duane Shumate" (2609231104)

00:29:32.069 --> 00:29:39.329

Or I can say, okay, and then I can go back in and realize that I did not select an answer here.

329 "Duane Shumate" (2609231104)

00:29:39.329 --> 00:29:44.489

So, I'll select the answer here, go back to save and exit.

330 "Duane Shumate" (2609231104)

00:29:44.489 --> 00:29:49.169

Yep.

331 "Duane Shumate" (2609231104)

00:29:50.309 --> 00:29:57.179

Reasons or updating the change, save it and now you'll see that. This is the device.

332 "Duane Shumate" (2609231104)

00:29:59.129 --> 00:30:04.979

So, uh, the individual happened to receive, we're planning, we would now move into planning.

333 "Duane Shumate" (2609231104)

00:30:04.979 --> 00:30:10.349

Similar to before we're indicate whether or not the individual end of the service or not.

334 "Duane Shumate" (2609231104)

00:30:10.349 --> 00:30:17.279

Whether they completed it successfully or not, we're going to put in the start date, which is the 1st, billable date of activity.

335 "Duane Shumate" (2609231104)  
00:30:17.279 --> 00:30:21.419  
We will enter in the service end date.

336 "Duane Shumate" (2609231104)  
00:30:21.419 --> 00:30:29.939  
If they completed it, so, in this circumstance, let's say that he started services August 22nd.

337 "Duane Shumate" (2609231104)  
00:30:29.939 --> 00:30:33.299  
And then he successfully completed services.

338 "Duane Shumate" (2609231104)  
00:30:33.299 --> 00:30:38.609  
September 20th again, it's auto calculating.

339 "Duane Shumate" (2609231104)  
00:30:38.609 --> 00:30:44.459  
The length of time with we're planning, we'll put the number of units delivered during this reporting period.

340 "Duane Shumate" (2609231104)  
00:30:44.459 --> 00:30:48.089  
Let's say we delivered 180 units and we're planning.

341 "Duane Shumate" (2609231104)  
00:30:48.089 --> 00:30:53.489  
Um, in this example that we're doing with Rocky again, there were no prior units.

342 "Duane Shumate" (2609231104)  
00:30:53.489 --> 00:30:57.899  
Delivered before this reporting period. So again, we would just put the same 100 again.

343 "Duane Shumate" (2609231104)  
00:30:57.899 --> 00:31:03.419  
And then we'll get to this field where it's going to ask us what are the activities that you did?

344 "Duane Shumate" (2609231104)  
00:31:03.419 --> 00:31:12.299  
That's part of quarter planning, so we have community resource, mapping, uh, community, based assessment paid.

345 "Duane Shumate" (2609231104)  
00:31:12.299 --> 00:31:15.929  
Community based assessment, unpaid discovery interviews.

346 "Duane Shumate" (2609231104)

00:31:15.929 --> 00:31:19.919

Facility based assessment, uh, kind of a situational assessment.

347 "Duane Shumate" (2609231104)

00:31:19.919 --> 00:31:23.669

Maybe observing a receptionist or a secretary.

348 "Duane Shumate" (2609231104)

00:31:23.669 --> 00:31:30.239

At your provider agency, it could have been a facility based assessment where you actually administered.

349 "Duane Shumate" (2609231104)

00:31:30.239 --> 00:31:33.599

The paper pencil test, or did some kind of online.

350 "Duane Shumate" (2609231104)

00:31:33.599 --> 00:31:38.729

Interest inventory, informational interview would be where you've.

351 "Duane Shumate" (2609231104)

00:31:38.729 --> 00:31:44.549

Spoken with a business about the job to help the individual better. Understand it.

352 "Duane Shumate" (2609231104)

00:31:44.549 --> 00:31:50.369

Whether or not a job shadow was completed or other activities.

353 "Duane Shumate" (2609231104)

00:31:50.369 --> 00:31:57.149

We will be creating a crosswalk with an operational definition of what falls within each of these activities.

354 "Duane Shumate" (2609231104)

00:31:57.149 --> 00:32:05.579

So, what you'll do is you'll enter the distinct number of events completed during that reporting period. So what we're going to say in this circumstance.

355 "Duane Shumate" (2609231104)

00:32:05.579 --> 00:32:10.799

Is that rocky? Did 3 unpaid community based assessments?

356 "Duane Shumate" (2609231104)

00:32:10.799 --> 00:32:16.499

To discovery interviews were completed, then you want with parents 1 with special ed teacher.

357 "Duane Shumate" (2609231104)

00:32:16.499 --> 00:32:20.009

That we do not have any facility based assessments.

358 "Duane Shumate" (2609231104)

00:32:20.009 --> 00:32:25.139

We might have done 3 informational interviews with businesses.

359 "Duane Shumate" (2609231104)

00:32:25.139 --> 00:32:28.409

And we may have done 4 job channels.

360 "Duane Shumate" (2609231104)

00:32:28.409 --> 00:32:34.289

Then, what we're going to indicate is how many days were spent on those activities.

361 "Duane Shumate" (2609231104)

00:32:34.289 --> 00:32:38.459

So, in the 3 community based assessments, rocking might have spent.

362 "Duane Shumate" (2609231104)

00:32:38.459 --> 00:32:43.109

2 days in each of those sites so that would be as a matter of 6.

363 "Duane Shumate" (2609231104)

00:32:43.109 --> 00:32:47.279

Combined days, uh, community based assessment.

364 "Duane Shumate" (2609231104)

00:32:47.279 --> 00:32:54.749

The discovery interviews with both completed within 1 day. So that would be 2 days, uh, for that.

365 "Duane Shumate" (2609231104)

00:32:54.749 --> 00:32:59.339

The information 1 view again, we'll say that those were each completed.

366 "Duane Shumate" (2609231104)

00:32:59.339 --> 00:33:02.789

Uh, within the same day, they didn't spread over multiple days.

367 "Duane Shumate" (2609231104)

00:33:02.789 --> 00:33:12.029

So we'll say those for 3 days and the job shadow will say that 2 of them lasted 3 hours or excuse me 3 days.

368 "Duane Shumate" (2609231104)

00:33:12.029 --> 00:33:16.589

So, to them after 3 days, that would be a combined 8 days.

369 "Duane Shumate" (2609231104)

00:33:16.589 --> 00:33:20.219

In which, um, job shadowing.

370 "Duane Shumate" (2609231104)

00:33:22.889 --> 00:33:33.959

We get to the next questions on, will the individual be seeking competitive integrated employment hopeful everybody who completes we're planning is planning to move forward a competitive integrated employment.

371 "Duane Shumate" (2609231104)

00:33:33.959 --> 00:33:38.969

And maybe as part of this process, they've learned that they need to be working on other skills.

372 "Duane Shumate" (2609231104)

00:33:38.969 --> 00:33:45.599

Uh, or maybe they're not quite ready yet for employment. Uh, so there are instances where people could successfully complete.

373 "Duane Shumate" (2609231104)

00:33:45.599 --> 00:33:49.169

And decide not to move forward with competitive, integrative employment.

374 "Duane Shumate" (2609231104)

00:33:49.169 --> 00:33:52.889

Uh, but in this instance, we're to say rocky is a.

375 "Duane Shumate" (2609231104)

00:33:52.889 --> 00:33:59.429

Continuing to file for, you know, that he's got a, uh, an interest and, uh, the planning team is all supportive.

376 "Duane Shumate" (2609231104)

00:33:59.429 --> 00:34:04.379

And so we're going to move forward, um, if we select no.

377 "Duane Shumate" (2609231104)

00:34:04.379 --> 00:34:08.969

Um, a different set of questions will appear then when we select. Yes.

378 "Duane Shumate" (2609231104)

00:34:10.079 --> 00:34:15.419

So, again, we'll be asked a series of questions on what was the job goal we'll say it's food service.

379 "Duane Shumate" (2609231104)

00:34:15.419 --> 00:34:19.469

The individual what service will they be transitioning to?

380 "Duane Shumate" (2609231104)

00:34:19.469 --> 00:34:24.329

In this circumstance will say that rocky is going to be getting job development to help him find a job.

381 "Duane Shumate" (2609231104)

00:34:24.329 --> 00:34:28.109

And rocky might be doing some Pre, vocational store services.

382 "Duane Shumate" (2609231104)

00:34:28.109 --> 00:34:33.149

To work on some basic skills, maybe around task attendance and following directions.

383 "Duane Shumate" (2609231104)

00:34:33.149 --> 00:34:43.799

Uh, it's going to ask us at the completion of career planning, what is desired wage and we'll say rocky roofer plannings is decided who wants to earn.

384 "Duane Shumate" (2609231104)

00:34:43.799 --> 00:34:47.369

13 dollars an hour and work 10 hours.

385 "Duane Shumate" (2609231104)

00:34:47.369 --> 00:34:56.279

Uh, a week, we're gonna identify what types of supports rocky may need as we've completed career planning.

386 "Duane Shumate" (2609231104)

00:34:56.279 --> 00:34:59.849

And let's say that he is going to need support job coaching.

387 "Duane Shumate" (2609231104)

00:34:59.849 --> 00:35:05.249

John interviewing assistants, he might need some assistance with resume development.

388 "Duane Shumate" (2609231104)

00:35:05.249 --> 00:35:10.229

And transportation, uh, but you would just select what needs were identified.

389 "Duane Shumate" (2609231104)

00:35:10.229 --> 00:35:17.759

In career planning, and again, this justifies why you may be authorizing additional services and delivering.

390 "Duane Shumate" (2609231104)

00:35:17.759 --> 00:35:23.189

Additional services again, we'll get to the question about virtual delivery of services.

391 "Duane Shumate" (2609231104)

00:35:23.189 --> 00:35:26.309

And we'll say that all of this was done in person.

392 "Duane Shumate" (2609231104)

00:35:26.309 --> 00:35:32.309

Then we get to the question of where the job exploration interview for planning profile completed.

393 "Duane Shumate" (2609231104)

00:35:32.309 --> 00:35:35.639

That is an outcome expectation the service definition.

394 "Duane Shumate" (2609231104)

00:35:35.639 --> 00:35:42.329

And we did that, so we're going to mark? Yes. Was a personal employment profile and job development plan completed.

395 "Duane Shumate" (2609231104)

00:35:42.329 --> 00:35:45.899

Again, that isn't expected outcome of the service.

396 "Duane Shumate" (2609231104)

00:35:45.899 --> 00:35:50.369

And we're going to say that we did that as well and then we get back to the destination.

397 "Duane Shumate" (2609231104)

00:35:50.369 --> 00:35:53.849

So, once again, I'll separately type in my name.

398 "Duane Shumate" (2609231104)

00:35:53.849 --> 00:35:57.989

Today's date.

399 "Duane Shumate" (2609231104)

00:35:57.989 --> 00:36:06.029

Add my signature and mark the formats.

400 "Duane Shumate" (2609231104)

00:36:07.829 --> 00:36:13.769

So, this time I did not get an error message so I did successfully complete all information.

401 "Duane Shumate" (2609231104)

00:36:13.769 --> 00:36:18.359

And when you get here, that's verified in the fact that this is now a green light.

402 "Duane Shumate" (2609231104)

00:36:18.359 --> 00:36:23.699

So, I am going to take just a brief brief here and get a drink. That's my.

403 "Duane Shumate" (2609231104)

00:36:23.699 --> 00:36:29.849

My voice is starting to go, uh, the cap. Can you confirm? Are there any questions yet on benefits planning?

404 "Duane Shumate" (2609231104)

00:36:29.849 --> 00:36:34.199

We're planning entering in the or the provider information.

405 "Kat Craig" (1198678272)

00:36:35.339 --> 00:36:39.749

Um, my question did come through, you should see it um, if not.

406 "Kat Craig" (1198678272)  
00:36:39.749 --> 00:36:53.579

I can read it to you. Will there be opportunity for providers to use a test individual in the red cap system in order to get familiar with each of the required data elements for each level of service? If not.

407 "Kat Craig" (1198678272)  
00:36:53.579 --> 00:37:03.149

Is there a different way? We can access templates for each service area and the related data elements questions to be addressed.

408 "Duane Shumate" (2609231104)  
00:37:03.149 --> 00:37:06.929  
Okay, excellent question. So, um.

409 "Duane Shumate" (2609231104)  
00:37:06.929 --> 00:37:15.689

We did have these system or sites open for test data with our advisory group, uh, for about a period of 4 to 6 weeks.

410 "Duane Shumate" (2609231104)  
00:37:15.689 --> 00:37:19.169

Uh, currently, I think the test site is closed.

411 "Duane Shumate" (2609231104)  
00:37:19.169 --> 00:37:22.889  
Um, what we can do is, um.

412 "Duane Shumate" (2609231104)  
00:37:22.889 --> 00:37:30.029

Copy as a PDF, these sites for individuals, but next week, when you go in and, uh.

413 "Duane Shumate" (2609231104)  
00:37:30.029 --> 00:37:35.999

Or create an initial access, you can navigate through the sites, just simply to kind of view them.

414 "Duane Shumate" (2609231104)  
00:37:35.999 --> 00:37:43.499

Uh, and not worry about putting in data, but at this point in time, we would not want any test data for them. We, we would actually.

415 "Duane Shumate" (2609231104)  
00:37:43.499 --> 00:37:46.769  
Want only actual live data and.

416 "Duane Shumate" (2609231104)  
00:37:46.769 --> 00:37:50.759

I will pause there, Rachel I don't know if you're actually where you can speak.

417 "Duane Shumate" (2609231104)  
00:37:50.759 --> 00:37:55.439  
Can you just validate what I just said? We're, we're not creating an additional test site, right?

418 "Racheal Matheny" (2691704320)  
00:37:57.029 --> 00:38:06.209  
Yeah, that's correct. It does allow you to download a PDF when you go into it. So you could easily just sign in and download a PDF. If you wanted to.

419 "Duane Shumate" (2609231104)  
00:38:11.130 --> 00:38:19.650  
All right, um, if there are other questions, you know, please continue to put them in the chat box and, uh, Chad, I don't actually have a chat.

420 "Duane Shumate" (2609231104)  
00:38:19.650 --> 00:38:24.390  
Open where I can see it with me sharing my screen. So, if there are any, uh, you know, this.

421 "Duane Shumate" (2609231104)  
00:38:24.390 --> 00:38:28.230  
Uh, please point orient me, uh, to those.

422 "Duane Shumate" (2609231104)  
00:38:29.490 --> 00:38:38.520  
Okay, so we're now looking at job development and we're going to say that, uh, rocky, although he completed quarter planning.

423 "Duane Shumate" (2609231104)  
00:38:38.520 --> 00:38:41.760  
During the quarter of July 1st is September 30th.

424 "Duane Shumate" (2609231104)  
00:38:41.760 --> 00:38:45.840  
That he actually did not begin job development until the next quarter.

425 "Duane Shumate" (2609231104)  
00:38:45.840 --> 00:38:50.940  
So, if he began, uh, John development, we'll say, October 10th.

426 "Duane Shumate" (2609231104)  
00:38:50.940 --> 00:38:54.990  
I'm going to move over now to the next quarterly reporting, period.

427 "Duane Shumate" (2609231104)  
00:38:56.010 --> 00:39:04.950  
And select that reporting period, and it'll show here at the top that we're now entering information in for fiscal year or 2.

428 "Duane Shumate" (2609231104)  
00:39:04.950 --> 00:39:08.790  
Which is October 1st, we're in December 31st.

429 "Duane Shumate" (2609231104)  
00:39:10.770 --> 00:39:16.350  
So, in job development, same question has the individual ended job development? Yes. Or no.

430 "Duane Shumate" (2609231104)  
00:39:16.350 --> 00:39:19.350  
This circumstance we're going to say, uh.

431 "Duane Shumate" (2609231104)  
00:39:19.350 --> 00:39:22.770  
That, um, he has not been good.

432 "Duane Shumate" (2609231104)  
00:39:22.770 --> 00:39:28.200  
And so when I say, no, again, no additional questions popped up.

433 "Duane Shumate" (2609231104)  
00:39:28.200 --> 00:39:33.540  
And I said, yes, you'll see that additional questions popped up again.  
The.

434 "Duane Shumate" (2609231104)  
00:39:33.540 --> 00:39:37.140  
Standard question of at the end of it, did he successful? Mm. Hmm.

435 "Duane Shumate" (2609231104)  
00:39:37.140 --> 00:39:43.470  
But for this example, we're going to say, no, um, service start date and again, this is the.

436 "Duane Shumate" (2609231104)  
00:39:43.470 --> 00:39:49.920  
1st date in which billable activity occurred if my memory is correct I think I said October 2.

437 "Duane Shumate" (2609231104)  
00:39:53.670 --> 00:39:57.480  
So, we'll select October 10th, the unit bill for this period.

438 "Duane Shumate" (2609231104)  
00:39:57.480 --> 00:40:01.170  
Um, maybe rocky has had 40 units.

439 "Duane Shumate" (2609231104)  
00:40:01.170 --> 00:40:04.560  
So, for this period, there were no previous.

440 "Duane Shumate" (2609231104)  
00:40:04.560 --> 00:40:09.450  
Units delivered because they start it within this period so that number would remain the same.

441 "Duane Shumate" (2609231104)

00:40:09.450 --> 00:40:14.700

Then some order for planning I'm going to go in and now indicate the number of events.

442 "Duane Shumate" (2609231104)

00:40:14.700 --> 00:40:21.330

In which I've done each of these activities and the number of days in which those events have stretched across.

443 "Duane Shumate" (2609231104)

00:40:21.330 --> 00:40:28.050

Again, this would be not calendar days, but the number of days in which that particular activity.

444 "Duane Shumate" (2609231104)

00:40:28.050 --> 00:40:39.600

Was completed, you can also see that these activities are different here than what it was in. We're planning because in the service definition allow more billable activities are different.

445 "Duane Shumate" (2609231104)

00:40:39.600 --> 00:40:43.980

So, when we're planning as an example, and these were things such as.

446 "Duane Shumate" (2609231104)

00:40:43.980 --> 00:40:48.420

Discovery interview job, shadowing community, based assessment.

447 "Duane Shumate" (2609231104)

00:40:48.420 --> 00:40:52.230

Now, it's directing you to only those activities.

448 "Duane Shumate" (2609231104)

00:40:52.230 --> 00:40:55.770

That are allowed within the job development service definition.

449 "Duane Shumate" (2609231104)

00:40:55.770 --> 00:41:00.060

So, again, you will see a lot of job development, specific activities.

450 "Duane Shumate" (2609231104)

00:41:00.060 --> 00:41:03.630

Such as applications submitted employer meetings.

451 "Duane Shumate" (2609231104)

00:41:03.630 --> 00:41:09.000

Employers contacted job interviews, job, shadowing trials.

452 "Duane Shumate" (2609231104)

00:41:09.000 --> 00:41:14.430

Mock interviews, task analysis or job analysis of potential jobs.

453 "Duane Shumate" (2609231104)

00:41:14.430 --> 00:41:17.970

Video resumes that may have been developed or other.

454 "Duane Shumate" (2609231104)

00:41:17.970 --> 00:41:22.620

Again, we will provide you a crosswalk of operational definitions here.

455 "Duane Shumate" (2609231104)

00:41:22.620 --> 00:41:30.720

On what each of these, uh, meaning when we talk about an employer meeting, this would mean an active participation.

456 "Duane Shumate" (2609231104)

00:41:30.720 --> 00:41:33.900

With an employer, so you've actually set up a meeting.

457 "Duane Shumate" (2609231104)

00:41:33.900 --> 00:41:42.180

To go in and conduct job development and try and support the individual to be hired or to coordinate in the interview.

458 "Duane Shumate" (2609231104)

00:41:42.180 --> 00:41:45.690

An employer contact would simply be a.

459 "Duane Shumate" (2609231104)

00:41:45.690 --> 00:41:49.080

Connection with an employer, so that would be an email.

460 "Duane Shumate" (2609231104)

00:41:49.080 --> 00:41:53.010

Uh, just a telephone call, um.

461 "Duane Shumate" (2609231104)

00:41:53.010 --> 00:41:59.880

Activity and so that's kind of what the difference is on those, um, criteria.

462 "Duane Shumate" (2609231104)

00:41:59.880 --> 00:42:07.470

So, again, you'll go through, you'll indicate the number of distinct events so maybe there were 4 distinct times.

463 "Duane Shumate" (2609231104)

00:42:07.470 --> 00:42:12.090

That you met with an employer there might have been 2 job interviews.

464 "Duane Shumate" (2609231104)

00:42:12.090 --> 00:42:15.750

And let's say that 1 mock interview was completed.

465 "Duane Shumate" (2609231104)

00:42:15.750 --> 00:42:20.460

Uh, to help rocky improve, how he might answer those interview questions.

466 "Duane Shumate" (2609231104)  
00:42:20.460 --> 00:42:26.070  
So, if I've entered that information in, I need to indicate the number of days spent on that activity.

467 "Duane Shumate" (2609231104)  
00:42:26.070 --> 00:42:30.600  
Uh, so there might have been, um, you know, 6 a day for that.

468 "Duane Shumate" (2609231104)  
00:42:30.600 --> 00:42:35.850  
Buying a meeting with an employer I may have met with an employer multiple times.

469 "Duane Shumate" (2609231104)  
00:42:35.850 --> 00:42:40.380  
Over that time, uh, the number of job interviews.

470 "Duane Shumate" (2609231104)  
00:42:40.380 --> 00:42:46.080  
Rarely without ever not be the same amount of days as the number of events. But, um.

471 "Duane Shumate" (2609231104)  
00:42:46.080 --> 00:42:49.830  
So, the job interview occurred, each 1 occurred.

472 "Duane Shumate" (2609231104)  
00:42:49.830 --> 00:42:55.650  
Within the same day in which the, uh, interview occurred knew they weren't multiple days long.

473 "Duane Shumate" (2609231104)  
00:42:55.650 --> 00:43:01.950  
Interviews and then the mock interview, uh, it also occurred just within 1.

474 "Duane Shumate" (2609231104)  
00:43:01.950 --> 00:43:06.090  
Calendar, so, at this point, in time, I've.

475 "Duane Shumate" (2609231104)  
00:43:06.090 --> 00:43:12.990  
Updated on the status of the completion I put the date that's available. Service started the number of units delivered.

476 "Duane Shumate" (2609231104)  
00:43:12.990 --> 00:43:17.010  
The activities that we've delivered the number of days of those activities.

477 "Duane Shumate" (2609231104)  
00:43:17.010 --> 00:43:20.610

I'll read the attestation language type. My negative.

478 "Duane Shumate" (2609231104)  
00:43:20.610 --> 00:43:27.570  
Do submission date.

479 "Duane Shumate" (2609231104)  
00:43:27.570 --> 00:43:31.740  
And I'm going to act, like, I forgot to do my add signature.

480 "Duane Shumate" (2609231104)  
00:43:31.740 --> 00:43:35.130  
Um, and so I'm gonna Mark complete.

481 "Duane Shumate" (2609231104)  
00:43:35.130 --> 00:43:44.760  
I took the form and again, I'll get that reminder that says some fields are needed that. I understand that. I need to do the attestation language.

482 "Duane Shumate" (2609231104)  
00:43:44.760 --> 00:43:49.500  
I'm going to say, okay, then I'll be taken back. Yeah. Too bad.

483 "Duane Shumate" (2609231104)  
00:43:56.580 --> 00:44:04.620  
Okay, and this example will say that I actually have a program manager who is willing to verify what I've put in.

484 "Duane Shumate" (2609231104)  
00:44:04.620 --> 00:44:08.910  
So this is where you can select if that's a feature that you.

485 "Duane Shumate" (2609231104)  
00:44:08.910 --> 00:44:11.970  
Would like to use that your agency, you can have the.

486 "Duane Shumate" (2609231104)  
00:44:11.970 --> 00:44:16.560  
Person during the primary data entry, select unverified.

487 "Duane Shumate" (2609231104)  
00:44:16.560 --> 00:44:20.490  
And the reason this changed was we added it.

488 "Duane Shumate" (2609231104)  
00:44:20.490 --> 00:44:24.570  
Signature correctly.

489 "Duane Shumate" (2609231104)  
00:44:24.570 --> 00:44:31.920  
And I'll save an exit and now you see that this is a yellow like.

490 "Duane Shumate" (2609231104)

00:44:31.920 --> 00:44:35.790  
So this does give you a level of assurance.

491 "Duane Shumate" (2609231104)  
00:44:35.790 --> 00:44:39.900  
If you're gonna verify what staff have entered, if you're going to have.

492 "Duane Shumate" (2609231104)  
00:44:39.900 --> 00:44:43.950  
Uh, maybe a more direct support professional staff enter the initial data.

493 "Duane Shumate" (2609231104)  
00:44:43.950 --> 00:44:49.830  
And that as a program manager, you may just be going in to do the final review before it being completed.

494 "Duane Shumate" (2609231104)  
00:44:49.830 --> 00:44:53.250  
That's where you could have individuals, Mark and verified.

495 "Duane Shumate" (2609231104)  
00:44:53.250 --> 00:44:56.790  
So, when I go back into the yellow.

496 "Duane Shumate" (2609231104)  
00:44:56.790 --> 00:45:02.580  
Let's say, I realized this person made a mistake. The individual really did complete the service.

497 "Duane Shumate" (2609231104)  
00:45:02.580 --> 00:45:07.110  
So that I can go in and change it to. Yes, they did in the service.

498 "Duane Shumate" (2609231104)  
00:45:07.110 --> 00:45:16.980  
Yes, they did become employed.

499 "Duane Shumate" (2609231104)  
00:45:19.230 --> 00:45:24.270  
Then I can save an ex form.

500 "Duane Shumate" (2609231104)  
00:45:32.400 --> 00:45:36.120  
So, that's telling me that we have additional fields that are needed.

501 "Duane Shumate" (2609231104)  
00:45:36.120 --> 00:45:44.250  
And if I select, okay, what happened is because I indicated the person successfully into the job.

502 "Duane Shumate" (2609231104)  
00:45:44.250 --> 00:45:48.870

Uh, or excuse me completed the service, and that they were successful with the service.

503 "Duane Shumate" (2609231104)

00:45:48.870 --> 00:45:53.760

Which means that they became employed, I'm now needed to go back and enter in.

504 "Duane Shumate" (2609231104)

00:45:53.760 --> 00:45:57.570

Uh, the start date of the service, the end date of the service.

505 "Duane Shumate" (2609231104)

00:45:58.800 --> 00:46:05.400

As well as additional information, so this speaks to the value of why you may want to have.

506 "Duane Shumate" (2609231104)

00:46:05.400 --> 00:46:11.910

Staff select unverified. Uh, so that way if there are mistakes, you can go back and correct.

507 "Duane Shumate" (2609231104)

00:46:11.910 --> 00:46:21.780

So, it's going to ask us has individual secured employment. Yes. And now I'm getting all these questions about employment.

508 "Duane Shumate" (2609231104)

00:46:21.780 --> 00:46:26.160

Of where, you know, what was the job goal we're going to save food service.

509 "Duane Shumate" (2609231104)

00:46:26.160 --> 00:46:29.880

Rocky is working the 12 hours a week.

510 "Duane Shumate" (2609231104)

00:46:29.880 --> 00:46:32.970

He's earning 12 dollars an hour.

511 "Duane Shumate" (2609231104)

00:46:32.970 --> 00:46:37.110

Uh, he does not have any workplace benefits. Mm. Hmm.

512 "Duane Shumate" (2609231104)

00:46:37.110 --> 00:46:40.230

The job implementation plan was completed.

513 "Duane Shumate" (2609231104)

00:46:40.230 --> 00:46:49.620

And the supports that he's going to need is job coaching. So had I initially indicated, yes, on both of these, these questions would have appeared.

514 "Duane Shumate" (2609231104)

00:46:49.620 --> 00:46:53.250

But again, this is where, if you're having other staff.

515 "Duane Shumate" (2609231104)

00:46:53.250 --> 00:46:57.150

Maybe do the data and you may want to use that unverified feature.

516 "Duane Shumate" (2609231104)

00:46:57.150 --> 00:47:05.520

So you do have that ability to go back in and review the data for accuracy and then enter in additional information.

517 "Duane Shumate" (2609231104)

00:47:05.520 --> 00:47:10.650

To correct, the information.

518 "Duane Shumate" (2609231104)

00:47:14.220 --> 00:47:26.700

So, now, when I leave, you'll see, um, actually, I've got some something that still told me, I haven't done something.

519 "Duane Shumate" (2609231104)

00:47:26.700 --> 00:47:38.040

Let me see what I may have missed here. This is what happens when you do live demos is.

520 "Duane Shumate" (2609231104)

00:47:38.040 --> 00:47:43.950

What I forgot to do was Mark it as a complete.

521 "Kat Craig" (1198678272)

00:47:48.630 --> 00:47:53.280

You do have 1 question.

522 "Kat Craig" (1198678272)

00:47:53.280 --> 00:48:05.670

Is going to be applied to other services in the future or is it just about services related to individuals gaining employment and employment skills?

523 "Duane Shumate" (2609231104)

00:48:05.670 --> 00:48:12.180

Another excellent question right now. Uh, it is focused on the employment programming and services.

524 "Duane Shumate" (2609231104)

00:48:12.180 --> 00:48:18.750

Simply because we've been working with our employment advisory team for about 78 years now.

525 "Duane Shumate" (2609231104)

00:48:18.750 --> 00:48:24.000

I'm getting it moved over to an outcome incentive in milestone. Um.

526 "Duane Shumate" (2609231104)  
00:48:24.000 --> 00:48:28.950  
Payment process, uh, the main reason we want to move that out of, um.

527 "Duane Shumate" (2609231104)  
00:48:28.950 --> 00:48:33.870  
A quarter hour unit of service is just like an example we've given with Rocky.

528 "Duane Shumate" (2609231104)  
00:48:33.870 --> 00:48:38.640  
If I have done a great job of providing timely service to Rocky.

529 "Duane Shumate" (2609231104)  
00:48:38.640 --> 00:48:42.510  
To where he's completed benefits, planning, career, planning.

530 "Duane Shumate" (2609231104)  
00:48:42.510 --> 00:48:45.870  
Quickly secured a job and it's now employed.

531 "Duane Shumate" (2609231104)  
00:48:45.870 --> 00:48:50.760  
What happens under a quarter hour unit of service is as a provider.

532 "Duane Shumate" (2609231104)  
00:48:50.760 --> 00:48:54.420  
I'm actually getting the bell last units and get less money.

533 "Duane Shumate" (2609231104)  
00:48:54.420 --> 00:48:57.540  
For having accomplished the desired outcome.

534 "Duane Shumate" (2609231104)  
00:48:57.540 --> 00:49:01.800  
Whereas if I took long periods of time to complete, we're planning.

535 "Duane Shumate" (2609231104)  
00:49:01.800 --> 00:49:05.730  
Was it an effective in job development, or maybe struggled and finding.

536 "Duane Shumate" (2609231104)  
00:49:05.730 --> 00:49:11.790  
Businesses who wanted to hierarchy the longer it takes me to deliver those services.

537 "Duane Shumate" (2609231104)  
00:49:11.790 --> 00:49:16.290  
I'm actually receiving more money and so with employment.

538 "Duane Shumate" (2609231104)  
00:49:16.290 --> 00:49:27.090

We want to ensure that we are paying in a way that incentivizes the intended outcome. So that's why we're doing this initially with employment services is so that.

539 "Duane Shumate" (2609231104)  
00:49:27.090 --> 00:49:31.650  
Uh, again down the road, 2 years, 3 years, 4 years.

540 "Duane Shumate" (2609231104)  
00:49:31.650 --> 00:49:39.060  
We have all this data collection, so we can see what activities lead to employment. What the average time frames are.

541 "Duane Shumate" (2609231104)  
00:49:39.060 --> 00:49:42.390  
Uh, for people to success, like, play each of the services.

542 "Duane Shumate" (2609231104)  
00:49:42.390 --> 00:49:46.290  
To where we can begin to work with our actuarial company.

543 "Duane Shumate" (2609231104)  
00:49:46.290 --> 00:49:51.540  
Uh, with our stakeholders on developing flat amounts of payment.

544 "Duane Shumate" (2609231104)  
00:49:51.540 --> 00:49:54.540  
So, as an example, what we might do down the road.

545 "Duane Shumate" (2609231104)  
00:49:54.540 --> 00:49:57.990  
Is when someone completes career planning, you would authorize.

546 "Duane Shumate" (2609231104)  
00:49:57.990 --> 00:50:03.750  
A single code of maybe 3000 dollars, and when the person completes that.

547 "Duane Shumate" (2609231104)  
00:50:03.750 --> 00:50:09.210  
No matter how long it takes them to completed. The provider would receive a flat amount. You met.

548 "Duane Shumate" (2609231104)  
00:50:09.210 --> 00:50:14.970  
So, the short term intent is to focus specifically on employment services.

549 "Duane Shumate" (2609231104)  
00:50:14.970 --> 00:50:20.400  
Um, and, uh, right now we are using this as the initial, um.

550 "Duane Shumate" (2609231104)  
00:50:21.900 --> 00:50:26.820  
Program area before, you know, looking at any other areas in.

551 "Duane Shumate" (2609231104)  
00:50:28.500 --> 00:50:37.410  
So, um, for vocational, uh, you can see this light moved from yellow to green. So we now successfully completed everything there.

552 "Duane Shumate" (2609231104)  
00:50:37.410 --> 00:50:41.880  
If we were doing Pre vocational in this example.

553 "Duane Shumate" (2609231104)  
00:50:41.880 --> 00:50:46.410  
Again, same type of information yes. Or no, if they've ended it.

554 "Duane Shumate" (2609231104)  
00:50:46.410 --> 00:50:52.200  
Did they do it successfully or not? Um, the start date of billable activity.

555 "Duane Shumate" (2609231104)  
00:50:52.200 --> 00:50:57.720  
Uh, the end date of the billable activity, the end date will not appear if we say.

556 "Duane Shumate" (2609231104)  
00:50:57.720 --> 00:51:03.570  
That the individual has not successfully ended the service so if I go back and reset that.

557 "Duane Shumate" (2609231104)  
00:51:03.570 --> 00:51:08.400  
And say, they've not ended the service. You'll see that that end date. No longer appears.

558 "Duane Shumate" (2609231104)  
00:51:08.400 --> 00:51:12.900  
Um, so again, there is a question.

559 "Duane Shumate" (2609231104)  
00:51:12.900 --> 00:51:16.500  
Uh, but I want to take a little bit more time in reviewing here.

560 "Duane Shumate" (2609231104)  
00:51:16.500 --> 00:51:20.100  
Uh, is not all the possible answers that could pop up.

561 "Duane Shumate" (2609231104)  
00:51:20.100 --> 00:51:26.250  
What I do want to point out is for Pre vocational is where you'll begin to see this type of grid.

562 "Duane Shumate" (2609231104)  
00:51:26.250 --> 00:51:29.340  
So, again, what we've done here in Pre, vocational.

563 "Duane Shumate" (2609231104)

00:51:29.340 --> 00:51:33.180

Is we've identified from the service definition and from.

564 "Duane Shumate" (2609231104)

00:51:33.180 --> 00:51:36.510

Cms technical assistance what are the skills.

565 "Duane Shumate" (2609231104)

00:51:36.510 --> 00:51:40.140

That are able to be developed in Pre, vocational services.

566 "Duane Shumate" (2609231104)

00:51:40.140 --> 00:51:44.430

Each of those skills are listed, uh, in a box here.

567 "Duane Shumate" (2609231104)

00:51:44.430 --> 00:51:49.320

So, in Pre vocational, you're able to develop skills relating to accepting feedback.

568 "Duane Shumate" (2609231104)

00:51:49.320 --> 00:51:55.410

Attendance punctuality, communication skills, following directions, grooming and.

569 "Duane Shumate" (2609231104)

00:51:55.410 --> 00:52:00.150

Mobility and motor skill training, social skills, task performance.

570 "Duane Shumate" (2609231104)

00:52:00.150 --> 00:52:04.050

Workplace protocols, workplace, safety.

571 "Duane Shumate" (2609231104)

00:52:04.050 --> 00:52:09.360

So, if an individual is developing or working on that skill is part of Pre locational.

572 "Duane Shumate" (2609231104)

00:52:09.360 --> 00:52:14.880

They'll need to go through and select yes. Or no. Or the individual skills that are being developed.

573 "Duane Shumate" (2609231104)

00:52:22.680 --> 00:52:29.280

And if there's another skill that's being developed, and that's where you would enter in what that still is or skills.

574 "Duane Shumate" (2609231104)

00:52:29.280 --> 00:52:33.330

And then you would select yes that you are developing.

575 "Duane Shumate" (2609231104)  
00:52:33.330 --> 00:52:40.200  
Another spill that we've not listed so once you've selected yes. Uh, on any 1 of these areas.

576 "Duane Shumate" (2609231104)  
00:52:40.200 --> 00:52:43.590  
You'll have to go indicate what was the baseline.

577 "Duane Shumate" (2609231104)  
00:52:43.590 --> 00:52:50.670  
Uh, that the individual is demonstrating, so if we're saying we're accepting or developing a skill on accepting feedback.

578 "Duane Shumate" (2609231104)  
00:52:50.670 --> 00:52:54.270  
That means that there was growth needed and that it was identified.

579 "Duane Shumate" (2609231104)  
00:52:54.270 --> 00:52:58.140  
As being something that would limit the individual's ability to move forward.

580 "Duane Shumate" (2609231104)  
00:52:58.140 --> 00:53:05.250  
With employment, so, at this point in time, we're going to say that rocky is only demonstrating the ability to accept feedback.

581 "Duane Shumate" (2609231104)  
00:53:05.250 --> 00:53:08.400  
Less than 25% of the time.

582 "Duane Shumate" (2609231104)  
00:53:08.400 --> 00:53:12.090  
And as we're working in Pre, vocational.

583 "Duane Shumate" (2609231104)  
00:53:12.090 --> 00:53:16.440  
Rocky has currently gotten to a point where he's now demonstrating that.

584 "Duane Shumate" (2609231104)  
00:53:16.440 --> 00:53:21.300  
26 to 50% of the time that we're working with them on that skill.

585 "Duane Shumate" (2609231104)  
00:53:21.300 --> 00:53:25.200  
You also have to identify what is the targeted threshold.

586 "Duane Shumate" (2609231104)  
00:53:25.200 --> 00:53:30.360  
Maybe the threshold is only that it's going to be done 2006 to 50% of the time.

587 "Duane Shumate" (2609231104)

00:53:30.360 --> 00:53:34.020

You know, rocky, you may not need to always demonstrate the ability.

588 "Duane Shumate" (2609231104)

00:53:34.020 --> 00:53:37.800

Feedback because maybe rocky's working and, uh.

589 "Duane Shumate" (2609231104)

00:53:37.800 --> 00:53:42.810

A work setting to where he's not going to be receiving, you know, regular or an ongoing feedback.

590 "Duane Shumate" (2609231104)

00:53:42.810 --> 00:53:49.440

But if rocky is working in a setting where it needs to be fully developed, then we would select the target.

591 "Duane Shumate" (2609231104)

00:53:49.440 --> 00:53:55.980

Has a fully developed, uh, with supports or fully developed without supports.

592 "Duane Shumate" (2609231104)

00:53:55.980 --> 00:54:01.770

So, again, this is 1 of the things that we've really been trying to do a lot of training and technical assistance on.

593 "Duane Shumate" (2609231104)

00:54:01.770 --> 00:54:06.000

Over the last couple of years is that individual should not really be.

594 "Duane Shumate" (2609231104)

00:54:06.000 --> 00:54:09.870

In Pre vocational, unless you've got a specific skill.

595 "Duane Shumate" (2609231104)

00:54:09.870 --> 00:54:14.190

That's being developed, you know what the threshold is.

596 "Duane Shumate" (2609231104)

00:54:14.190 --> 00:54:18.300

Where the individual currently performing, which justifies.

597 "Duane Shumate" (2609231104)

00:54:18.300 --> 00:54:23.280

While you're delivering Pre vocational in a measure of that current threshold.

598 "Duane Shumate" (2609231104)

00:54:23.280 --> 00:54:26.670

Again, these are all expectations that were updated.

599 "Duane Shumate" (2609231104)

00:54:26.670 --> 00:54:31.380

In the current waiver manual and waiver service definitions.

600 "Duane Shumate" (2609231104)  
00:54:31.380 --> 00:54:35.010  
At the most recent renewal, which was in, um.

601 "Duane Shumate" (2609231104)  
00:54:35.010 --> 00:54:38.370  
September 2021.

602 "Duane Shumate" (2609231104)  
00:54:38.370 --> 00:54:41.640  
So this shouldn't be new information, but if it is.

603 "Duane Shumate" (2609231104)  
00:54:41.640 --> 00:54:45.240  
You know, individual should only be receiving.

604 "Duane Shumate" (2609231104)  
00:54:45.240 --> 00:54:49.410  
Vocational, if there's very specific skills that have been identified.

605 "Duane Shumate" (2609231104)  
00:54:49.410 --> 00:54:55.320  
And we have an identification of what we're needing to develop that skill towards.

606 "Duane Shumate" (2609231104)  
00:54:55.320 --> 00:55:00.630  
So, in these quarterly progress reports, you're just simply indicating the skills being developed.

607 "Duane Shumate" (2609231104)  
00:55:00.630 --> 00:55:06.660  
And you're identifying what their current, or what their initial baseline was when they started the service.

608 "Duane Shumate" (2609231104)  
00:55:07.680 --> 00:55:12.780  
What their current skill level is, and then what that targeted threshold is.

609 "Duane Shumate" (2609231104)  
00:55:14.610 --> 00:55:22.680  
Again, this is going to vary for each individual, uh, based upon what their capacity is based upon maybe what type of work that we're looking at.

610 "Duane Shumate" (2609231104)  
00:55:22.680 --> 00:55:27.600  
Uh, or based upon the type of, uh, uh, supports that that are gonna need.

611 "Duane Shumate" (2609231104)  
00:55:27.600 --> 00:55:33.630

So, again, each time you select yes as a skill being developed, you are required to go through.

612 "Duane Shumate" (2609231104)

00:55:33.630 --> 00:55:40.830

And identify their development. Okay. So we've identified.

613 "Duane Shumate" (2609231104)

00:55:40.830 --> 00:55:44.310

Those for come back to Saturday, Monday.

614 "Duane Shumate" (2609231104)

00:55:48.720 --> 00:56:02.730

Filled it out today, adding my signature. That's 1. I'm gonna mark it as complete and I'm going to save an exit.

615 "Duane Shumate" (2609231104)

00:56:04.770 --> 00:56:09.660

This 1, it is telling me that I have a lot of things I have to go back and correct.

616 "Duane Shumate" (2609231104)

00:56:09.660 --> 00:56:15.660

So, I'm going to select okay. And unfortunately, whether you answer yes. Or no.

617 "Duane Shumate" (2609231104)

00:56:15.660 --> 00:56:24.570

Uh, you do have to go through, uh, and indicate this, but I thought we had to fix. So, this is why it's good to do live demo. Uh, Rachel.

618 "Duane Shumate" (2609231104)

00:56:24.570 --> 00:56:28.560

Uh, did we actually have to select blank here?

619 "Duane Shumate" (2609231104)

00:56:36.420 --> 00:56:41.820

Let me go in and try to fix that. This is why it's good to have your, uh.

620 "Duane Shumate" (2609231104)

00:56:41.820 --> 00:56:47.040

Development specialist on the call, so they can work at a fixing that.

621 "Duane Shumate" (2609231104)

00:56:47.040 --> 00:56:51.300

But we'll get that we'll get that. Uh, that's that's just a, um.

622 "Duane Shumate" (2609231104)

00:56:51.300 --> 00:56:56.430

Um, design, uh, issues, so ideally, you should not have to go select that.

623 "Duane Shumate" (2609231104)

00:56:56.430 --> 00:57:01.380

Uh, so we'll just have to look at whether or not these are required fields or not. Um.

624 "Duane Shumate" (2609231104)  
00:57:01.380 --> 00:57:04.470  
We may only move this to, I guess, um, versus.

625 "Duane Shumate" (2609231104)  
00:57:04.470 --> 00:57:16.530  
Yes, no, but we'll get that corrected. So the last service that we have that.

626 "Duane Shumate" (2609231104)  
00:57:16.530 --> 00:57:20.340  
Done yet I'm going to ignore you leave the record.

627 "Duane Shumate" (2609231104)  
00:57:22.770 --> 00:57:27.960  
Uh, the last 1 that we haven't done yet is support employment so, in support employment.

628 "Duane Shumate" (2609231104)  
00:57:30.150 --> 00:57:33.600  
Again, it's identifying that we're in support unemployment in the top.

629 "Duane Shumate" (2609231104)  
00:57:33.600 --> 00:57:38.190  
We've got the same yes. Or no, it's going to ask us if for their group an individual.

630 "Duane Shumate" (2609231104)  
00:57:38.190 --> 00:57:41.520  
As the individual ended employment yes. Or no.

631 "Duane Shumate" (2609231104)  
00:57:41.520 --> 00:57:45.810  
Uh, if yes, you're getting different questions, then if the answer is no.

632 "Duane Shumate" (2609231104)  
00:57:45.810 --> 00:57:49.020  
And the type of questions, and the answers.

633 "Duane Shumate" (2609231104)  
00:57:49.020 --> 00:57:53.310  
That you have, uh, here again are if they.

634 "Duane Shumate" (2609231104)  
00:57:53.310 --> 00:57:57.840  
Ended employment, uh, it's gonna ask, um.

635 "Duane Shumate" (2609231104)  
00:58:00.000 --> 00:58:05.130  
So, if they've been an appointment, it's going to say, what was the start date.

636 "Duane Shumate" (2609231104)  
00:58:05.130 --> 00:58:10.710  
Uh, the employment end date, the date supports began and what were the dates? The sports end.

637 "Duane Shumate" (2609231104)  
00:58:10.710 --> 00:58:15.960  
If the individual is still employed, then, you know, you wouldn't be asked.

638 "Duane Shumate" (2609231104)  
00:58:15.960 --> 00:58:21.120  
On, uh, employment end date, or when supports ended.

639 "Duane Shumate" (2609231104)  
00:58:21.120 --> 00:58:26.610  
Uh, if they did end, it's going to ask you for the type of employment separation.

640 "Duane Shumate" (2609231104)  
00:58:26.610 --> 00:58:29.940  
If they didn't end, it's not going to be asking that question.

641 "Duane Shumate" (2609231104)  
00:58:29.940 --> 00:58:33.870  
But if they did end deployment, it'll again also ask.

642 "Duane Shumate" (2609231104)  
00:58:33.870 --> 00:58:38.250  
What was the type of separation and what was the reason or separation.

643 "Duane Shumate" (2609231104)  
00:58:39.990 --> 00:58:45.900  
Because services were delivered again, you'll go through and look at the skills that you may have been developing on the job.

644 "Duane Shumate" (2609231104)  
00:58:45.900 --> 00:58:50.640  
And you will identify what the baseline was.

645 "Duane Shumate" (2609231104)  
00:58:50.640 --> 00:58:56.820  
Um, during the report, or at the beginning, when the person starting the service, what the current threshold is.

646 "Duane Shumate" (2609231104)  
00:58:56.820 --> 00:59:06.270  
And what they're targeted threshold then at the bottom and say, well, the individual be continuing in another employment service.

647 "Duane Shumate" (2609231104)  
00:59:06.270 --> 00:59:11.430

If you select, yes, then it's going to ask what service since in this instance.

648 "Duane Shumate" (2609231104)  
00:59:11.430 --> 00:59:18.900

We said the person was discontinuing employment. Uh, it's going to ask do they still have general employment support needs?

649 "Duane Shumate" (2609231104)  
00:59:18.900 --> 00:59:22.740

And what will be the service of the individual will be transition 2.

650 "Duane Shumate" (2609231104)  
00:59:22.740 --> 00:59:29.310

So, again, it's are they going to be transitioning to another employment service?

651 "Duane Shumate" (2609231104)  
00:59:29.310 --> 00:59:32.670

And maybe they're not, uh, maybe it's not known or maybe they are.

652 "Duane Shumate" (2609231104)  
00:59:32.670 --> 00:59:38.310

Moving on to another service, and maybe they've just continued to point out because I lost it.

653 "Duane Shumate" (2609231104)  
00:59:38.310 --> 00:59:42.300

And they're proving to have that type, then they have.

654 "Duane Shumate" (2609231104)  
00:59:42.300 --> 00:59:48.090

Uh, provider of test station again, typing in your name, but they, you entered it.

655 "Duane Shumate" (2609231104)  
00:59:48.090 --> 00:59:51.150

Adding the signature and marking as complete.

656 "Duane Shumate" (2609231104)  
00:59:51.150 --> 00:59:59.340

So, I know we are approaching the top of the hour. We're going to have some errors there. So I went through that 1 a little bit quicker.

657 "Duane Shumate" (2609231104)  
00:59:59.340 --> 01:00:06.000

But it's the same business logic as the other reports, and entering very similar information.

658 "Duane Shumate" (2609231104)  
01:00:06.000 --> 01:00:09.630

What would be entered in with? Uh, we are planning.

659 "Duane Shumate" (2609231104)

01:00:09.630 --> 01:00:14.340  
Because it's about skill development on the job, whereas the vocational.

660 "Duane Shumate" (2609231104)  
01:00:14.340 --> 01:00:17.490  
The skill development and preparation job so it's very.

661 "Duane Shumate" (2609231104)  
01:00:17.490 --> 01:00:27.000  
Similar types of questions so, with that, uh, I'm gonna stop sharing that and go back to the presentation so we can get through this and have time.

662 "Duane Shumate" (2609231104)  
01:00:27.000 --> 01:00:30.510  
Available for any questions that, uh, we are able to answer.

663 "Kat Craig" (1198678272)  
01:00:32.910 --> 01:00:36.180  
So, are we back sharing the PowerPoint? Correct?

664 "Duane Shumate" (2609231104)  
01:00:36.180 --> 01:00:40.680  
Yes, okay. So that.

665 "Duane Shumate" (2609231104)  
01:00:40.680 --> 01:00:44.340  
That is the red cap database site.

666 "Duane Shumate" (2609231104)  
01:00:44.340 --> 01:00:48.060  
When that side opens as we'll, we'll discuss them just a few seconds.

667 "Duane Shumate" (2609231104)  
01:00:48.060 --> 01:00:51.630  
You will have 45 days to go in and complete information.

668 "Duane Shumate" (2609231104)  
01:00:51.630 --> 01:00:56.490  
Or each of the reporting periods, and this 1st opening, you will actually be able to report.

669 "Duane Shumate" (2609231104)  
01:00:56.490 --> 01:00:59.490  
For both the reporting period of.

670 "Duane Shumate" (2609231104)  
01:00:59.490 --> 01:01:05.400  
July 1st, through September 30th as well as October 1st, through December 31st.

671 "Duane Shumate" (2609231104)  
01:01:05.400 --> 01:01:10.950  
Uh, that is the only reporting period where you'll be able to step back and do 2 quarters.

672 "Duane Shumate" (2609231104)  
01:01:10.950 --> 01:01:16.980  
Uh, and all future reporting periods, you will only be able to complete data for the prior.

673 "Duane Shumate" (2609231104)  
01:01:16.980 --> 01:01:21.930  
Uh, so the contract language that goes along with the corresponding.

674 "Duane Shumate" (2609231104)  
01:01:21.930 --> 01:01:26.400  
Waiver amendment that enables us to do the value based payments.

675 "Duane Shumate" (2609231104)  
01:01:26.400 --> 01:01:30.180  
That, like, contract language has been sent out.

676 "Duane Shumate" (2609231104)  
01:01:30.180 --> 01:01:34.350  
Providers will need to go through that contract language.

677 "Duane Shumate" (2609231104)  
01:01:34.350 --> 01:01:37.950  
Um, and just on the slide, we're identifying.

678 "Duane Shumate" (2609231104)  
01:01:37.950 --> 01:01:46.740  
That the language, the contract specifies that this particular value based payment is eligible for contracted employment service providers.

679 "Duane Shumate" (2609231104)  
01:01:46.740 --> 01:01:51.570  
As a quality payment to be completing quarter of the reporting of data elements.

680 "Duane Shumate" (2609231104)  
01:01:51.570 --> 01:01:55.050  
For future value, based payment benchmarking.

681 "Duane Shumate" (2609231104)  
01:01:55.050 --> 01:01:59.190  
It clarifies that the quarterly reporting incentive.

682 "Duane Shumate" (2609231104)  
01:01:59.190 --> 01:02:05.760  
55 dollars per report that is completed and again you can complete multiple reports.

683 "Duane Shumate" (2609231104)  
01:02:05.760 --> 01:02:08.970  
If the individual has received multiple services.

684 "Duane Shumate" (2609231104)

01:02:08.970 --> 01:02:19.980

Within that quarter, um, as noted, uh, this is the 2nd of 2, uh, and the last of the to.

685 "Duane Shumate" (2609231104)

01:02:19.980 --> 01:02:27.180

Detailed, uh, training sessions on the red cap site. Uh, you can either go back into today's recording.

686 "Duane Shumate" (2609231104)

01:02:27.180 --> 01:02:31.320

Uh, once it gets posted, or you can go back to the reporting of January so.

687 "Duane Shumate" (2609231104)

01:02:31.320 --> 01:02:36.090

To view that recording as well as a PowerPoint.

688 "Duane Shumate" (2609231104)

01:02:36.090 --> 01:02:41.760

Of today's presentation the transcript and then, I assume to be uploaded document.

689 "Duane Shumate" (2609231104)

01:02:41.760 --> 01:02:52.830

Of frequently asked questions, uh, the data collection timeline for this, uh, the red cap site will open next Tuesday, January, 17.

690 "Duane Shumate" (2609231104)

01:02:52.830 --> 01:02:56.280

That quarter will be open for 45 days.

691 "Duane Shumate" (2609231104)

01:02:56.280 --> 01:03:01.170

4 reports to be entered in future periods.

692 "Duane Shumate" (2609231104)

01:03:01.170 --> 01:03:04.710

Uh, the, uh, reporting site will always open.

693 "Duane Shumate" (2609231104)

01:03:04.710 --> 01:03:07.920

The 15 of the 2nd, month of a quarter.

694 "Duane Shumate" (2609231104)

01:03:07.920 --> 01:03:11.430

And you can see that it will remain open.

695 "Duane Shumate" (2609231104)

01:03:11.430 --> 01:03:16.830

Um, and I think we may have some, this.

696 "Duane Shumate" (2609231104)

01:03:16.830 --> 01:03:21.000

Apply dates here, but it should be open each time.

697 "Duane Shumate" (2609231104)  
01:03:21.000 --> 01:03:27.180  
4 or 45 days so for the, um, January, uh, reporting period.

698 "Duane Shumate" (2609231104)  
01:03:27.180 --> 01:03:35.880  
It would open February. 1st, and I believe that actually shouldn't say March 15th. So, uh, let me, uh, get with federal programs.

699 "Duane Shumate" (2609231104)  
01:03:35.880 --> 01:03:42.330  
And we may need to update the slide before we post it because I believe that the portal is always open.

700 "Duane Shumate" (2609231104)  
01:03:42.330 --> 01:03:56.490  
45 days, uh, again, provider contracts, uh, were distributed, I believe last week, uh, if there is any comment on those contracts themselves.

701 "Duane Shumate" (2609231104)  
01:03:56.490 --> 01:04:02.580  
Um, that was comments should be submitted to the mail at dot dot. Gov.

702 "Duane Shumate" (2609231104)  
01:04:02.580 --> 01:04:05.730  
With a subject line of provider contract.

703 "Duane Shumate" (2609231104)  
01:04:05.730 --> 01:04:09.510  
Uh, that please note that no incentive payments will be made.

704 "Duane Shumate" (2609231104)  
01:04:09.510 --> 01:04:13.350  
Until that revised contract has been signed.

705 "Duane Shumate" (2609231104)  
01:04:13.350 --> 01:04:23.340  
And return to the department and deemed affected questions about value based payment data collection, whether it's employment pay for reporting.

706 "Duane Shumate" (2609231104)  
01:04:23.340 --> 01:04:32.460  
Or any 1 of the other 8 incentives do you have questions about that? Uh, again email the email at dot dot? Gov.

707 "Duane Shumate" (2609231104)  
01:04:32.460 --> 01:04:36.660  
Uh, but this time with the subject line of data collection.

708 "Duane Shumate" (2609231104)  
01:04:36.660 --> 01:04:48.240

And we will respond to those questions. All right. Uh, that is it, uh, for today's webinar and I can now see the chat box again. So, let me see if there's other.

709 "Duane Shumate" (2609231104)  
01:04:48.240 --> 01:05:00.720  
Questions that have been asked. Okay. So, um.

710 "Duane Shumate" (2609231104)  
01:05:02.550 --> 01:05:06.060  
So, again, the slides will be uploaded to the, uh.

711 "Duane Shumate" (2609231104)  
01:05:06.060 --> 01:05:11.100  
Training webinar link I will repost that again.

712 "Duane Shumate" (2609231104)  
01:05:11.100 --> 01:05:15.450  
If some have joined late, you may not be able to see.

713 "Duane Shumate" (2609231104)  
01:05:15.450 --> 01:05:20.220  
Earlier chat box information.

714 "Duane Shumate" (2609231104)  
01:05:23.610 --> 01:05:28.710  
So, I just posted in the link where you can find a recording the PowerPoint.

715 "Duane Shumate" (2609231104)  
01:05:28.710 --> 01:05:33.900  
And it in the information that you may have missed, um, let's see, here.

716 "Duane Shumate" (2609231104)  
01:05:33.900 --> 01:05:38.910  
Feel free to share the recording and slides with, uh.

717 "Duane Shumate" (2609231104)  
01:05:38.910 --> 01:05:42.930  
Any that you would like, um.

718 "Duane Shumate" (2609231104)  
01:05:42.930 --> 01:05:47.490  
There's a question on, uh, is this used for residential providers.

719 "Duane Shumate" (2609231104)  
01:05:47.490 --> 01:05:51.300  
The bill for 1st, so, um.

720 "Duane Shumate" (2609231104)  
01:05:51.300 --> 01:05:57.450  
It is the same redcap site. Uh, if you are eligible for the 1st.

721 "Duane Shumate" (2609231104)

01:05:57.450 --> 01:06:01.860

You would enter the redcap the same hyperlink.

722 "Duane Shumate" (2609231104)

01:06:01.860 --> 01:06:05.850

Uh, the 1st would appear on the original home screen.

723 "Duane Shumate" (2609231104)

01:06:05.850 --> 01:06:10.050

And then you would select the 1st, uh, there are.

724 "Duane Shumate" (2609231104)

01:06:10.050 --> 01:06:13.290

Very different questions from the 1st, because ultimately.

725 "Duane Shumate" (2609231104)

01:06:13.290 --> 01:06:17.910

Uh, the 1st is simply, uh, a testing that it was completed so it's.

726 "Duane Shumate" (2609231104)

01:06:17.910 --> 01:06:20.970

Much less questions, um.

727 "Duane Shumate" (2609231104)

01:06:20.970 --> 01:06:24.810

But I, I, I will refrain from answering.

728 "Duane Shumate" (2609231104)

01:06:24.810 --> 01:06:29.010

Questions about the 1st, um, because, um, those would be.

729 "Duane Shumate" (2609231104)

01:06:29.010 --> 01:06:33.840

Best answered like Kim stock, uh, who is overseeing that and see if.

730 "Duane Shumate" (2609231104)

01:06:33.840 --> 01:06:39.720

But if you have questions, you can send it to the email at dot com.

731 "Duane Shumate" (2609231104)

01:06:39.720 --> 01:06:45.270

With the subject line, VP data collection and that will get routed to crosstalk.

732 "Duane Shumate" (2609231104)

01:06:45.270 --> 01:06:57.030

To answer that question. Okay. I don't see any other questions in the chat box.

733 "Duane Shumate" (2609231104)

01:06:57.030 --> 01:07:00.750

Uh, so, uh, if you do have questions again, please.

734 "Duane Shumate" (2609231104)

01:07:00.750 --> 01:07:04.860  
Submit those to the DD email at dot dot com.

735 "Duane Shumate" (2609231104)  
01:07:04.860 --> 01:07:09.600  
Again, this portal will be open on, uh, next Tuesday.

736 "Duane Shumate" (2609231104)  
01:07:09.600 --> 01:07:12.750  
Uh, the 17 and as a.

737 "Duane Shumate" (2609231104)  
01:07:12.750 --> 01:07:16.710  
Questions arise. Please do not hesitate to reach out.

738 "Duane Shumate" (2609231104)  
01:07:16.710 --> 01:07:21.720  
For contact, and I will put my email address and.

739 "Duane Shumate" (2609231104)  
01:07:21.720 --> 01:07:25.230  
That was.

740 "Duane Shumate" (2609231104)  
01:07:25.230 --> 01:07:33.330  
Should there be questions, uh, once you're trying to enter in data.

741 "Duane Shumate" (2609231104)  
01:07:33.330 --> 01:07:37.800  
What will happen and what I did not cover is once you've entered the information.

742 "Duane Shumate" (2609231104)  
01:07:37.800 --> 01:07:41.670  
Uh, we'll have our reviewers and we'll go in and and review to ensure.

743 "Duane Shumate" (2609231104)  
01:07:41.670 --> 01:07:48.810  
That all information with or completed, uh, the reviewers will also just kind of look for logical answers.

744 "Duane Shumate" (2609231104)  
01:07:48.810 --> 01:07:52.980  
So, if for some reason, someone puts in that an individual.

745 "Duane Shumate" (2609231104)  
01:07:52.980 --> 01:07:59.970  
As a goal of working 1Billion hours in a quarter, uh, you know, that won't be accepted and what would happen.

746 "Duane Shumate" (2609231104)  
01:07:59.970 --> 01:08:04.140  
Is there would be an email back to the person who uploaded that information.

747 "Duane Shumate" (2609231104)  
01:08:04.140 --> 01:08:07.200  
To ask if they go in and fix that data, you.

748 "Duane Shumate" (2609231104)  
01:08:07.200 --> 01:08:11.790  
Uh, so we will be looking for, uh, kind of logical responses.

749 "Duane Shumate" (2609231104)  
01:08:11.790 --> 01:08:15.750  
Uh, anything that, you know, kind of falls beyond what would be.

750 "Duane Shumate" (2609231104)  
01:08:15.750 --> 01:08:21.510  
Expected or anticipated, um, we would be in contact with the person who did the data entry.

751 "Duane Shumate" (2609231104)  
01:08:21.510 --> 01:08:25.350  
To update that before we would accepted as approved.

752 "Duane Shumate" (2609231104)  
01:08:25.350 --> 01:08:29.400  
Once that review is completed, then the, uh.

753 "Duane Shumate" (2609231104)  
01:08:29.400 --> 01:08:32.400  
Department mental health reviewers will lock that.

754 "Duane Shumate" (2609231104)  
01:08:32.400 --> 01:08:35.730  
Uh, entry from further data entry.

755 "Duane Shumate" (2609231104)  
01:08:35.730 --> 01:08:39.210  
And at that point in time is when the payment would be processed.

756 "Duane Shumate" (2609231104)  
01:08:40.680 --> 01:08:51.810  
All right, uh, other questions okay, I'm not seeing any other so if anybody has, uh.

757 "Duane Shumate" (2609231104)  
01:08:51.810 --> 01:08:55.350  
Posted a question to just, uh.

758 "Kat Craig" (1198678272)  
01:08:55.350 --> 01:08:58.830  
You, I'll give you just a few seconds to confirm.

759 "Kat Craig" (1198678272)  
01:08:58.830 --> 01:09:02.730  
No, there hasn't been any coming in that. I have not posted.

760 "Duane Shumate" (2609231104)

01:09:02.730 --> 01:09:12.060

Okay all right well, with that, we will conclude today's webinar. Thank you all very much.
