

Improving lives THROUGH
supports and services
THAT FOSTER self-determination.

9/20/23

FREE Missouri Open Door (MOD) Technology Series

Topic: Universal Design

September 27, 2023

12:30 pm - 1:30 pm

The term universal design is an approach to design that can result in products that are easier for everyone to use, including individuals with disabilities. Universal design applies to the built environment, products, and to how we present information both in-person and through websites. This session will explore the relationship between universal design and the world of assistive technology.
