Clarification & Extended Survey Due Date

TCM Provider Vineland-3 Interest Survey

CLARIFICATION: The interest survey collects the projection of necessary resources for October – December 2023 to determine the Assessment Capacity Bridge Plan's initial budget impact and predict future quarters' impact. The bridge plan will continue until the Division has sufficient capacity to complete all assessments.

The Division is working to finalize a plan for Targeted Case Management (TCM) Providers to administer the Vineland Adaptive Behavior Scales (Vineland-3) for certain Level of Care (LOC) Renewals as part of the short term [Assessment Capacity Bridge Plan](#).

TCM Providers interested in participating in the Vineland-3 bridge plan strategy are asked to complete this [survey](#) by 9/29/23. Only TCM Providers that complete this survey may participate.

Please review Section D of the [Assessment Capacity Bridge Plan](#) on the [webpage](#) for more details. Questions should be directed to Jessica.Bateman@dmh.mo.gov.
